ABSTRACT

This report contains the results of an evaluation of coverage issues regarding the 1994 Federal Libraries and Information Centers Survey. The objectives of this evaluation were to determine the accuracy and completeness of the final survey frame and to analyze the criteria used to classify federal library facilities as in-scope and out-of-scope. The report also points out areas for potential improvement in data collection and processing. The 1994 Federal Libraries and Information Centers Survey (FLICS) was the first statistical measurement of this group of library facilities since 1978. The first phase was to create a universe of all possible survey candidates. Nearly two-thirds of the original universe file was ruled out-of-scope, and over 38% of these were purposely excluded from the final survey frame. Comparing other library directories to the FLICS universe resulted in a match rate of nearly 90%. Problems were observed in the definition of "federal" library. Overall, the lack of alternative sources and corroborative data means that completeness and accuracy of survey responses, and therefore of the final survey frame, cannot be determined. Recommendations are made to alleviate these problems, re-examining the federal universe. Six appendixes contain lists of different categories of libraries considered for the survey frame. The survey form is included. (Contains 15 tables.) (SLD)

The National Center for Education Statistics (NCES) is the primary federal entity for collecting, analyzing, and reporting data related to education in the United States and other nations. It fulfills a congressional mandate to collect, collate, analyze, and report full and complete statistics on the condition of education in the United States; conduct and publish reports and specialized analyses of the meaning and significance of such statistics; assist state and local education agencies in improving their statistical systems; and review and report on education activities in foreign countries.

NCES activities are designed to address high priority education data needs; provide consistent, reliable, complete, and accurate indicators of education status and trends; and report timely, useful, and high quality data to the U.S. Department of Education, the Congress, the states, other education policymakers, practitioners, data users, and the general public.

We strive to make our products available in a variety of formats and in language that is appropriate to a variety of audiences. You, as our customer, are the best judge of our success in communicating information effectively. If you have any comments or suggestions about this or any other NCES product or report, we would like to hear from you. Please direct your comments to:

FOREWORD

This report was prepared for the National Center for Education Statistics (NCES) by the Governments Division of the U.S. Bureau of the Census, John Curry, principal author. It is intended to address issues of interest and concern to the NCES and education policymakers and researchers. The report contains the results of an evaluation of coverage issues regarding the 1994 Federal Libraries and Information Centers Survey. Its objectives are to determine the accuracy and completeness of the final survey frame and to analyze the criteria used to classify federal library facilities as in-scope and out-of-scope. This report also points out areas for potential improvement in data collection and processing.

ABBREVIATIONS USED IN THIS REPORT

The following abbreviations are used frequently throughout this report.

BIA—Bureau of Indian Affairs, U.S. Department of the Interior.

DOD—U.S. Department of Defense.

FEDLINK—Federal Library and Information Network—Library of Congress program that provides federal libraries, information centers, and other federal activities with information retrieval and library support services.

FLICS—Federal Libraries and Information Centers Survey—the focus of this evaluation.

LMC—Library Media Center Survey—the sample surveys of public, private, and Indian schools for library media centers.

NCES—National Center for Education Statistics—the federal agency, within the Department of Education, that is responsible for collecting library statistics on a national scale.

NEC—not elsewhere classified.

No.—number of.

SASS—Schools and Staffing Survey—the sample surveys of public (school and local education agency level), private, and Indian schools for staffing, programs, and policies.

z—entry would amount to less than half the unit of measurement shown.

CHAPTER 1. INTRODUCTION

Section 1.0 Survey Background and Purpose of Evaluation

The 1994 Federal Libraries and Information Centers Survey (FLICS) was the first statistical measurement of this group of library facilities since a data collection effort conducted in 1978. It was also the sixth survey in the series and the first to cover information centers as well as libraries. The 1994 FLICS was conducted by the National Center for Education Statistics (NCES) of the U.S. Department of Education with additional support from the Federal Library and Information Center Committee of the Library of Congress. The Bureau of the Census acted as collecting agent for the NCES.

A statistical survey conducted on a regular or periodic schedule benefits from an established universe or survey frame. Subsequent surveys require the panel to be updated with deletions and additions. But because so much time had elapsed since the last survey of federal libraries, one of the first tasks facing the FLICS staff was building a survey frame.

The FLICS staff constructed a preliminary universe from existing directories of federal libraries, most notably Oryx Press' 1993 Directory of Federal Libraries and the Federal Library and Information Network (FEDLINK) mailing list. Appendix D provides a complete listing of the sources that were used. To narrow the universe to those facilities that met the survey's four-part criteria for inclusion,¹ two pretests and a special locator survey were conducted. In addition, certain types of libraries were purposely excluded from the final survey frame, primarily those located overseas or connected to elementary-secondary schools operated by the Department of Defense (DOD) and the Interior Department's Bureau of Indian Affairs (BIA).

¹Facilities included in the survey were: (1) either a library or an information center, (2) staffed with at least one paid part-time or full-time librarian, technical information specialist, library technician, archivist, or other trained person whose principal function was to assist others in meeting their information needs, (3) considered to be a federal government operation or receiving a majority (at least half) of its funding from federal appropriations, and (4) in support of the information needs of a federal agency or supplied information as part of the agency's mission.

The primary focus of this evaluation was on the accuracy and completeness of this newly-created survey frame. A secondary objective was to analyze the survey's criteria for classifying facilities as in-scope or out-of-scope. Specifically, the evaluation looked into four major coverage issues:

1. Nearly two-thirds of the library facilities on the original universe file failed to meet the FLICS's criteria for inclusion in the final survey frame, a percentage that seemed high. Chapter 2 discusses and presents selected statistical tabulations comparing the characteristics of the in-scope and out-of-scope groups.
2. Twenty-four percent of the universe was purposely excluded from the final survey. Chapter 3 explores the validity of the assumption underlying the largest group of excluded federal libraries, namely that the libraries connected to DOD and BIA-operated schools were canvassed in other NCES-sponsored library surveys. Appendix A provides a complete listing of the 822 purposely-excluded facilities.
3. The FLICS staff employed the major directories of federal libraries to construct its original universe. Available for this evaluation were secondary sources listing federal libraries that were compared to both the universe and final survey frame. This comparison, the topic of Chapter 4, resulted in the identification of 189 library facilities that could not be matched to the FLICS' files. These unmatched facilities are listed in Appendix B. In addition, this comparison revealed 312 facilities that were considered to be libraries in one or more secondary source and which were on the FLICS universe, but failed to qualify for the final survey frame. This subtopic is also discussed in Chapter 4 while the 312 facilities are listed in Appendix C.
4. The final phase of this evaluation looked at the FLICS' definition of "federal" as applied to the library universe. As discussed in Chapter 5, the survey applied a two-part definition of what constitutes a "federal" library. The first part specified agencies that were "considered" to be federal, but left that decision to the respondent rather than basing it on established listings. The second part specified libraries whose funding was paid primarily from federal funds (which met the other three criteria). Chapter 5 discusses the potential consequences and limitations of these (opened-ended) criteria.

The methodology used to evaluate these issues is the topic of Chapter 6. It discusses the need to create a special modified universe file and describes some of the difficulties inherent in comparing diverse secondary sources to the FLICS universe and final survey frame. It also provides specific methodological details on topics covered by the first five chapters.

Section 1.1 Principal Findings

1. Although the 1994 FLICS was the sixth survey of federal libraries, its immediate predecessor was conducted over fifteen years earlier, denying the project a current and updated listing of federal facilities. Thus, the first task for the FLICS was constructing a survey frame from scratch. While various directories of federal libraries existed, none of them had the same focus or shared the same definitions as the FLICS. These constraints, as well as the time constraints inherent in such a project, made this task especially difficult. Moreover, a large portion of the resources devoted to the survey had to be expended on other methodological problems, particularly non-response follow-up.
2. The first phase of the 1994 FLICS was to create a universe of all possible survey candidates. Nearly two-thirds of the original universe file was ruled out-of-scope. Over 38 percent of these out-of-scope facilities were purposely excluded from the final survey frame. Because of incomplete data in the survey files, it was difficult to pinpoint why so many of the remaining potential survey candidates fell out-of-scope.
3. The purposely-excluded facilities consisted primarily of elementary and secondary schools operated by the Department of Defense and Bureau of Indian Affairs and of federal libraries located overseas. The assumption underlying the exclusion of BIA schools, viz. that they were canvassed in other surveys, was largely confirmed although some were found in school library files other than the Indian School one.
4. Comparing other library directories to the FLICS universe resulted in a match rate of nearly 90 percent. Of the 1,602 federal libraries found in these secondary sources, only 189 facilities could not be matched to the FLICS files. How many of these facilities belong on the final survey frame (and therefore represent an under-reporting factor), are included in other survey responses, or fail to

meet all four screening criteria cannot be determined without very extensive follow-up.

5. This comparison also revealed that 312 library facilities that were on the FLICS universe and matched to one or more secondary source, were not on the final survey frame. That is, these facilities were viewed as bona fide libraries by at least two independent sources, but still failed to meet the FLICS inclusion criteria. The reasons for excluding these facilities could not be determined because of incomplete data in the survey files.
6. The classification of information clearinghouses was inconsistent. This group of information facilities was declared out-of-scope during the universe building stage, yet seventeen facilities with "clearinghouse" in their name appear on the final survey frame.
7. The FLICS relied on respondents to determine if they were considered to be a federal operation. This procedure contrasts with standards employed elsewhere in the federal establishment, including the Office of Management and Budget, the National Archives, and the Census Bureau, which rely on organizational structure, budgetary authority, and administrative criteria.
8. The FLICS definition of a "federal" library relied in part on the facility's level of federal funding. A consequence of using such a qualifier was a survey frame based partially on self-reporting by the respondent. These responses were not corroborated and their reliability and validity are unknown.
9. Implicit in the use of a criterion that depends on self-reporting is the need for a valid response. Consequently, the lack of alternative sources and corroborative data means that the completeness and accuracy of these responses, and therefore of the makeup of the survey frame, are unknown.
10. Development of a survey frame based on a definition that goes beyond the generally-accepted structural make-up, budget authority, and administrative characteristics criteria may result in coverage overlap with other NCES-sponsored surveys. This evaluation also identified 12 academic libraries that appear on both the FLICS and academic library survey files.

Section 1.2 Recommendations

1. The out-of-scope facilities in the universe file should be re-examined to determine whether they were properly classified. Special attention should be applied to those facilities which meet any of these conditions: (a) were listed as a library in more than one source; (b) reported in Oryx's library directory as having a substantial number of employees or volumes; or (c) failed only the third criterion of the four-part screening criteria (i.e., verify whether the facility was a federal operation, perhaps by referring to the established listings cited in recommendation 9, rather than relying totally on self-classification).
2. Federal libraries found in secondary directories, but not matched to the FLICS universe (listed in Appendix B), should be followed-up to determine if any should be added to the survey frame.
3. Better documentation should be maintained on decisions to classify facilities as in-scope or out-of-scope. This will reduce confusion over the basis for inclusion of a facility and will facilitate the update of the survey frame in future surveys.
4. More detailed and meaningful codes should be created to indicate why a library facility was ruled out-of-scope. These codes should be applied in a consistent manner to avoid large numbers of facilities in the "All Other" category.
5. The classification of information clearinghouses should be reviewed and clarified. If it is possible for some members of this group to qualify as in-scope, then all members should be screened to identify those that meet the survey's criteria for inclusion.
6. Libraries operated by regional offices of federal agencies should be examined more closely for consistent classification. Additional scrutiny is needed in cases where some of the regional libraries are in-scope and others out-of-scope. Also, if some of the agency's regional offices operate libraries, then its other regional offices should be contacted to determine if they operate libraries as well.
7. Use of a funding-based criterion to define "federal" libraries in future surveys should be reconsidered. Such an open-ended definition is not clear, subject to different interpretations, and creates obstacles to achieving a complete and accurate survey frame.
8. In defining what constitutes the "federal universe," consideration should be given to using selection criteria that correspond with generally-accepted definitions and are consistent with those applied in related surveys. This will increase precision and help to avoid overlap in coverage.
9. One or more established listings of federal agencies should be used as the basis for defining the FLICS' "federal" universe rather than relying on respondents' interpretation. These include such documents as the U.S. Government Organization Manual, U.S. Budget Appendix, FIPS-95 listing, and the Census Bureau's Dependent Agency Listing for the federal government.
10. Future surveys should take advantage of relational database software so that basic identification information about the subunits included in the responses of headquarter libraries can be entered into a separate table and linked to its parent record by the FedLibID code.

CHAPTER 2. COMPARISONS OF IN-SCOPE AND OUT-OF-SCOPE FEDERAL LIBRARY FACILITIES

Although the 1994 Federal Libraries and Information Centers Survey was the sixth such statistical undertaking, it was the first one conducted since 1978. It was also the first to include information centers as well as libraries. As a consequence, the survey staff did not have a current survey frame that required just updating. Instead, they needed to construct a survey frame from scratch. Using various directories that list federal libraries, the staff constructed a universe of 3,397 potential survey candidates.^{2,3} From this universe the FLICS canvassed 1,571 library facilities, of which 1,234 qualified for the final survey frame (the "in-scopes").

The universe file that the survey staff created was an electronic holding tank for any potential candidate to survey. The list was pared down considerably after additional research as well as by the pretest and special locator surveys that were conducted. To be in-scope, a library facility had to meet **all** four of the following criteria. For the most part, the survey relied on the facility itself to determine whether or not it met these criteria. The four conditions were:

The facility had to be either a library or an information center.⁴ This criterion excluded such

²To avoid confusion, this evaluation uses the same terminology as that employed in the FLICS. Thus, "universe" refers to the original list of all potential survey candidates compiled prior to the actual survey. The "final survey frame" refers to the 1,234 facilities deemed to be federal libraries. Note that the latter is not a sample drawn from the universe, but represents those facilities that met the survey's eligibility criteria.

³As used in this report, "universe file" refers to a modified version of the FLICS' original data file of 3,244 facilities (94Univ1.DBF). The modified version included 3,397 facilities, was updated with information gathered in the final survey, and contained fields specially created for this evaluation. See Chapter 6 for details on how this modified universe file was created.

⁴For the purposes of this survey, a library is an organization that includes among its functions the following: selection, acquisition, organization, preservation, retrieval, and provision of access to information resources. An information center is an organization that performs the function of linking requestors with appropriate information resources through established mechanisms, such as database searching,

organizations as a public affairs office, agency locator service, records management facility, publications distribution facility, and computer center.

The facility had to be staffed with at least one paid part-time or full-time librarian, technical information specialist, library technician, archivist, or other trained person whose principal function is to assist others in meeting their information needs.

The facility had to be either a) considered a federal government operation or b) receiving a majority (at least half) of its funding from federal appropriations.

The facility had to either a) support the information needs of a federal agency or b) supply information as part of the agency's mission.

The locator survey divided the first criterion into two parts, primarily to identify potentially missing facilities. For the purpose of this report, these two parts were combined.

Section 2.0 Sources Used to Construct Survey Universe

Although the survey staff used a variety of sources to construct the original universe, nearly 72 percent of the facilities on the universe file were derived from a single source: the Oryx Press' 1993 Directory of Federal Libraries. The next closest was a list of defense elementary-secondary school libraries obtained from the Defense Department (6.7 percent), which were later excluded, followed by the Federal Library and Information Network (FEDLINK) mailing list (5.5 percent), the U.S. Government Organization Manual (5.1 percent), Federal Health Care Libraries Directory (4.4 percent), and other miscellaneous sources (6.6 percent). Table 2-1 lists the sources used, shows the number and percentages each contributed, and provides a breakdown of these facilities between in- and out-of-scope classification.

providing referrals, answering specific questions, or by other means

Section 2.1 Evaluation of Out-of-Scope Group

Table 2-1 reveals that a large amount, nearly two-thirds, of the facilities initially identified as potential survey candidates failed to meet the survey's criteria for inclusion in the final survey frame.

Nearly one-fourth (822, or 24 percent) of the facilities in the universe were left out by design, primarily because they either were assumed to be canvassed in other library surveys or were located overseas (which posed difficult data collection problems). This group represented 38 percent of all the out-of-scope facilities. These 822 "purposely-excluded" facilities are listed in Appendix A. Their numbers in the universe file and FLICS' reasons for exclusion can be summarized as follows:

Department of Defense Elementary-Secondary School Libraries (228) - These have a different mission and function than most federal libraries. Most are located overseas while domestic ones are canvassed in other NCES-sponsored surveys.

Military Overseas Libraries (196) - Overseas libraries were excluded for logistical reasons.

Bureau of Indian Affairs Elementary-Secondary Indian School Libraries¹ (181) - Like the DOD School Libraries, these have a different mission and function than most federal libraries. They are also canvassed in other NCES-sponsored surveys.

U.S. Information Agency Libraries (152) - These libraries are also based overseas.

Bureau of Prisons (65) - These libraries were excluded because they are staffed by prisoners (according to Bureau of Prison officials) and therefore fail the staffing criterion for inclusion.

Over 1,300 (62 percent) of the out-of-scopes were excluded for other reasons. Each record in the survey data file contains five fields that provide insight into why a facility met or failed the criteria for inclusion: the Activity Code and four "Who Should Respond" screening questions. None of them, however, fully explain the reasons why these facilities were ruled to be

out-of-scope because of a lack of information in the files.

The Activity Code (ACT) classifies the facility's present status into eight possible categories (including one created for this evaluation, the "Purposely-Excluded Facility"). Table 2-2 provides a breakdown of the universe file by Activity Code. As shown in this table, the purposely-excluded facilities comprised the largest group of out-of-scope facilities (822, or 24 percent of the total universe), followed by the generic out-of-scope (777, or 23 percent), facilities that were closed or duplicated (183, or 5 percent), and facilities combined or reported in another response (145, or 4 percent). "Generic out-of-scope facilities" are those that failed to meet one or more of the in-scope criteria, but the unmet criteria were not identified in the data files. Also, for nearly 10 percent of the out-of-scope facilities the universe file had no data for the Activity Code.

The four "Who Should Respond" fields (WhoRsp1..WhoRsp4) provide answers to the screening questions cited at the beginning of this chapter. These questions largely determined whether a facility was in- or out-of-scope and should have provided more information on such questions as why the generic out-of-scopes (Activity Code "O") were excluded. Because of the problems described in Chapter 6, these fields were blank for many of the out-of-scope facilities. Nearly 64 percent of the facilities with Activity Code "O" had no data in the file for any of these four questions. Similarly, nearly two-thirds of all the out-of-scope facilities had no data for these four fields. This limitation precluded making any conclusions on this issue. It would have been very useful, for instance, to have more information about which of the four conditions the generic out-of-scope facilities failed in order to analyze whether the survey's screening criteria were too restrictive.

Table 2-3 provides what data are available by showing a cross tabulation between the Activity Code and "Who Should Respond" questions. Table 2-4 lists those federal libraries with an activity code indicating that they were in-scope yet were not in the final survey file.

Section 2.2 Supplemental Tabulations

This evaluation produced a number of other tabulations comparing in-scope and out-of-scope library facilities. Much of the information on which the tabulations were based was available only for those

¹As used in this report, the term "Bureau of Indian Affairs schools" refers to Indian schools operated by an Indian Tribe, state government, or the federal government on Native American reservations.

facilities added to the universe file from the Oryx Press' Directory of Federal Libraries. They are presented for informational purposes and consist of Tables 2-5 through 2-8.

Table 2-1. Number of Federal Library Facilities by Source

This table shows the source that originally identified the library facility during the universe compilation phase. See Appendix D for a complete citation of each source listed below.

Source (SsrcID)	Total Universe		On Final Survey Frame		Not on Final Survey Frame	
	Number	% of total	Number	%	Number	%
Total	3,397	100	1,234	36	2,163	64
Oryx Directory (001)	2,435	72	982	40	1,453	60
DOD Schools List* (006)	228	7	0	0	228	100
FEDLINK Mailing List (002)	188	6	75	40	113	60
U.S. Govt Organization Manual (008)	172	5	13	8	159	92
Health Care Libraries Directory (003)	149	4	32	21	117	79
Dept. of the Navy Libraries List (004)	17	1	6	35	11	65
Public Document Rooms List (005)	12	(z)	6	50	6	50
Air Force LIS Address List (007)	5	(z)	2	40	3	60
Other Sources, N.E.C. (009)	191	6	118	62	73	38

(z) Less than 0.5 percent.

Note: "LIS" stands for Library and Information System.

*These facilities were purposely excluded from final survey frame.

m,N,m,m...	3	0	0	0	0	3	3	0	0	0	0
m,m,m,m...	1,502	54	33	0	21	1,242	495	531	65	151	206

¹Each letter corresponds to the answer to the four "Who Should Respond" questions on the survey form. The letter "m" represents a missing value in the data file. The first question was divided into two parts on the Locator Survey form, but were combined in this table (e.g., a "Yes" reply to either part is shown as "Y" in this table).

The four "Who Should Respond" questions correspond to the library eligibility criteria described above.

²The counts by activity code do not agree with Table 2-2 because of discrepancies in the data files, viz. the activity code was not always revised when a facility was ruled to be out-of-scope. The 30 library facilities having an in-scope activity code, but not actually in the final survey frame are listed in Table 2-4. Guide to activity codes:

- | | |
|--|--|
| b = Active facility, not a current year add | H = Headquarters, possibly reporting for multiple facilities |
| A = Active facility, added during current year | N = Nonrespondent to final follow-up |
| O = Out-of-scope, NEC | E = Purposely excluded from final survey frame |
| C = Combined with another facility | D = Duplicate or closed facility |

³"Other" consists of late "Adds" to the survey file (9) and nonrespondents to final follow-up effort (28).

Source: Coverage Evaluation of the 1994 Federal Libraries and Information Centers Survey (U.S. Dept. of Education, National Center for Education Statistics).

**Table 2-4. Federal Library Facilities With In-Scope Activity Code
That Are Not in the Final Survey File**

This supplemental table lists the thirty federal library facilities having an in-scope activity code (b, A, H, or N), but which are not on the final survey frame (FLIC 94F DBF). These facilities were matched to the final file using the federal library ID number (FedLibID), a unique code assigned to all library facilities in the universe by the FLICS staff. It is possible that some (or all) of these facilities are on the final survey frame under another FedLibID, in which case they should have been assigned a different, out-of-scope activity code.

CHAPTER 3. TESTING ASSUMPTIONS FOR EXCLUSION OF SELECTED FEDERAL SCHOOL LIBRARIES

The Federal Libraries and Information Centers Survey purposely excluded from its final survey frame two major groups of libraries that accounted for 12 percent of the original universe (modified):⁶ elementary and secondary school libraries operated by the Department of Defense and the Bureau of Indian Affairs.⁷ They were excluded for multiple reasons: they have a different mission from most federal libraries; to reduce the survey's reporting burden; and they were assumed to be canvassed in other NCES library surveys. The evaluation project tested this latter assumption, namely that these libraries were reported elsewhere. Section 3.1 discusses the Bureau of Indian Affairs libraries while Section 3.2 looks at those operated by the Department of Defense.

Section 3.0 Exclusion of Bureau of Indian Affairs School Libraries

The FLICS excluded 181 Indian school libraries that were on the universe file. All but 22 of the Indian school libraries were matched to other library survey files.⁸ These 22 facilities are listed in Table 3-1. In addition, of the Indian school libraries that were successfully matched to other school library survey files, sixteen of them were located in survey files other than the Indian school library file (LMC Indian).⁹ Ten were found in the public school library file while six others were in the academic library file. These sixteen facilities are listed in Table 3-2.

⁶This evaluation used a modified version of the final FLICS universe file (94Univ1 DBF). These modifications included (1) adding 153 facilities that were canvassed, but not added to the universe file, (2) updating the file with information from the final survey, and (3) combining information from FLICS preuniverse files. See Chapter 6 for details.

⁷As used in this report, the term "Bureau of Indian Affairs schools" refers to Indian schools operated by an Indian Tribe, state government, or the federal government on Native American reservations.

⁸The other library survey files were from the 1993-1994 School Library Media Centers Survey (LMC Indian, LMC Private and LMC Public), 1994 Public Library Survey and 1994 IPEDS Academic Library Survey.

⁹This file contains 160 Indian school libraries.

Considering the difficulty of matching records between these various files and the fact that two of the three school library files were samples, these 22 do not appear to be an exorbitant number of nonmatches. That is, the FLICS' assumption that these school libraries were canvassed elsewhere appears valid.

Section 3.1 Exclusion of Department of Defense School Libraries

The FLICS also purposely excluded from the final survey frame 228 libraries associated with elementary and secondary schools operated by the Department of Defense. All but 18 were located overseas and therefore would have been excluded anyway.¹⁰

While the other NCES school library surveys included Department of Defense schools, they also had the limitation of excluding those located overseas.¹¹ Consequently, there was no data file with which to compare most of the 228 purposely-excluded DOD school libraries. None of the 18 domestic DOD school libraries could be matched to either the LMC Public or SASS Public school library files, both of which were samples drawn from the Common Core of Data (CCD) universe.¹² Consequently, the only conclusion from this inability to match is that the 18 DOD school libraries were not on either sample. As a result of these limitations, this phase of the evaluation proved to be inconclusive.

¹⁰Overseas libraries, most of which are operated by the Department of Defense and United States Information Agency, were excluded because of the logistical problems associated with contacting these facilities.

¹¹The 1994-95 Common Core of Data (CCD) survey included foreign DOD schools for the first time.

¹²If these DOD libraries were on the CCD, then they would be considered represented elsewhere.

**Table 3-1. Federal Indian School Libraries in Federal Universe File,
But Not Other NCES Library Surveys**

This table lists the 22 Indian school libraries in the universe file that could not be matched to records in any other NCES library file, including the 1994 school library file (LMC Indian, LMC Private, and LMC Public), 1994 public library file, and the 1994 academic library file.

CHAPTER 4. COMPARING THE UNIVERSE TO SECONDARY DIRECTORIES OF FEDERAL LIBRARIES

A major phase of the FLICS coverage evaluation involved obtaining and reviewing secondary directories of federal libraries and comparing them to both the FLICS' universe and final survey frame. As noted earlier, the long gap between the 1994 FLICS and its predecessor required the construction of a new survey frame. Development of the universe file from scratch rather than as an update to an existing one imposed limitations on this phase of the coverage evaluation. That is, the FLICS staff used the best and most detailed listings of federal libraries available (e.g., Oryx Press' Directory) to compile its universe. This left the evaluation staff with more general sources that included federal libraries only tangentially. Extensive searches of the Internet for listings resulted in only one meaningful source.

The secondary directories available (see Appendix E) were culled to identify federal libraries, which were first compared to the FLICS' universe file. The purpose of this matching operation was two-fold: (1) to verify that federal libraries found in these secondary directories were also listed in the universe file and (2) to identify federal libraries that may be missing from the FLICS. A total of 1,413 federal libraries in these secondary sources were matched to the modified universe file while 189 library facilities could not be successfully matched. Appendix B lists these 189 unmatched facilities.¹¹

Additional evaluation of these findings, however, could not be conducted because of incomplete coverage in both the universe and final data files. For instance, the matching operation uncovered 153 facilities that were surveyed (i.e., they were in the full scale survey file, FLIC_94.DBF), but which were never added to the universe file. Also, the lack of data for the out-of-scopes' responses to the four "Who Should Respond" questions prevented complete investigation of some issues. These limitations are discussed in more detail below and in the Methodology section (Chapter 6).

¹¹Included in the appendix are six information clearinghouses. Due to their inconsistent classification in the FLICS, they were left on the list (see Section 4.2).

Section 4.0 Libraries Found in Secondary Directories, But Not Matched to Survey Universe

A review of alternate library directories identified 295 facilities that could not be matched to the FLICS universe. Additional follow-up eliminated 73 of them for the following reasons:

- Forty-four were found in the full-scale survey file, 31 of which were among the 153 library facilities in this file, but not the universe.
- Twenty-three were found to be included in the data reported by other libraries on the final survey frame.
- Six were eliminated for miscellaneous reasons.

A list of the remaining 222 facilities was submitted to the FLIC survey staff for review. This screening process eliminated another 33 facilities, 27 of which were connected to the Library of Congress and determined to be included in its response. The FLICS staff also noted that whether any of the remaining facilities were being reported (e.g., in other responses or under different names) could not be determined without extensive follow-up. Netting out these 33 facilities left a total of 189 libraries that were found in secondary sources, but which could not be matched to FLICS survey files.

Determining whether these facilities were included in the final survey frame was made difficult by both the lack of complete data in the data file (FLIC_94F.DBF) as well as inconsistencies in the data. Many of the facilities in Appendix B are operated by the same agency, some of which are listed in the survey frame. It was often difficult to discern from the survey data files whether these additional facilities were included in their response.

This problem may be illustrated by examining one possible reason for failing to match a library listed in a secondary source to the survey frame, namely that it is included in the response of a "headquarters" library. This group of respondents represents what one could call "central reporters," libraries whose submission provided data for multiple facilities. But often it could not be determined from either the electronic data file or the survey forms themselves whether some of the unmatched facilities were being included in a "headquarters" response. For instance, there are two fields in the final data file indicating whether a

respondent was a "headquarters" facility. But these two fields, Activity Code (ACT) and Organization and Structure Status (FLA1), provide inconsistent information. As shown in Table 4-1, the tally for one field indicates that there were just 37 headquarters while the other says there were 181. A total of 193 facilities indicated they were headquarters libraries through one or both of these two fields.

Libraries that reported being headquarters in question FLA1 were supposed to list on the survey form the other facilities they were reporting. But almost half (89) of the 181 libraries failed to report them. Moreover, when headquarters libraries did list the facilities they included, the data were not keyed into the survey data file due to space limitations in the data base table. As a result, the survey forms had to be examined to determine which libraries the central reporters were including. It is recommended that future surveys take advantage of relational data base software that would allow these subunits to be keyed into a separate table linked to the parent record by the FedLibID code.

Another observation concerns federal agencies and their regional offices. The final survey frame includes libraries in some regional offices of federal agencies, but not others. For instance, the FLICS universe includes OSHA regional libraries only in Denver, Philadelphia, San Francisco, and Seattle.¹⁴ According to the 1993-94 U.S. Government Organization Manual, OSHA has regional offices in six other cities as well. Similarly, the universe includes Bureau of Labor statistics (BLS)¹⁵ regional libraries in Boston, Chicago, Kansas City, and New York, but the same source states that BLS has four more regional offices. In future surveys, it is recommended that if an agency appears to operate libraries in some of its regional offices, then the other regions should be canvassed with at least a screening form (such as the one used in the locator survey).

¹⁴Occupational Safety and Health Administration, U.S. Department of Labor. The other regional offices are located in Atlanta, Boston, Chicago, Dallas, Kansas City, and New York. The OSHA library in San Francisco was ruled out-of-scope.

¹⁵Bureau of Labor Statistics, U.S. Department of Labor. The other regional offices are located in Atlanta, Dallas, Philadelphia, and San Francisco. The BLS libraries in Kansas City and New York were ruled out-of-scope.

Section 4.1 Libraries Found in Secondary Directories That Were on the Universe File, But Not on the Final Survey Frame

As noted above, a review of secondary sources matched 1,413 facilities to the modified universe file. Of these, 473 did not make it to the final survey frame. The FLICS's activity code provides a partial explanation of why they did not, as shown below:

Out-of-Scope, NEC (0)	219
Duplicate or closed (D)	74
Combined with other (C)	72
Purposely excluded (E)	15
Active [sic] (b)	12
Active, late add to file (A)	2
No data for activity code	79

Excluding the combined, duplicate, and purposely-excluded categories leaves 312 facilities, representing over one-fourth of the final survey frame, who were viewed as bona fide libraries by two or more independent sources, yet failed to qualify as a library for the FLICS. As shown in Table 4-2, over half of these 312 facilities were listed in two or more secondary directories (as well as the original source).

Moreover, the survey files do not provide sufficient information for the reasons these facilities were not considered in-scope for the FLICS. To illustrate, Table 4-3 shows the 312 facilities by their final activity code and replies to the four "Who Should Respond" questions. Nearly 30 percent of the 312 records have either an incorrect "in-scope" activity code or none at all. In addition, 67 percent of these records had no data in the file for the "Who Should Respond" questions. These limitations make it impossible to derive any conclusions as to why these facilities were recognized as bona fide libraries in the primary and secondary sources, but failed to meet the survey's criteria. The 312 library facilities are listed individually in Appendix C.

Section 4.2 Inconsistent Classification of Information Clearinghouses

One of the secondary sources used in this evaluation was a listing of information clearinghouses, many of which could not be matched to the universe file. The FLICS staff reported that in consultation with the library community, they had decided to exclude clearinghouses from the survey. Consequently, many of these facilities were never entered into the universe

file. They were, in effect, a "purposely-excluded" category.

Evaluation of the final survey frame, however, revealed 17 federal libraries that have the word "clearinghouse" in their name (see Table 4-4).

According to the FLICS staff, these facilities were added because they met the four criteria for inclusion.

The fact that some clearinghouses did qualify for inclusion in the survey suggests that future surveys should re-evaluate the decision to exclude these facilities as a group from its universe-building process.

Other clearinghouses besides these 17 may have also qualified, but the fact that they were left off the 1994 FLICS universe meant that they were never canvassed in either the various pretest or final surveys.

**Table 4-1. Number of Federal Libraries by Activity Code
and Organization and Structure Status**

This table illustrates the conflicting number of headquarter libraries according to the two data fields in the final survey frame that indicate this status.

Activity Code (ACT)	Total	Organization and Structure Status (FLA1)			
		Blank	Autonomous Library (1)	Headquarters or Central/Main Library (2)	Branch or Nonautonomous Library (3)
Total	1,234	75	838	181	140
Active (b and A)	1,169	45	828	156	140
Headquarters (H) . . .	37	2	10	25	0
Nonrespondent (N) . .	28	28	0	0	0

Table 4-3. Number of Federal Library Facilities Found in Secondary Directories That Are on the Universe File, But Not the Final Survey Frame, by Combined "Who Should Respond" Codes and Activity Code

This table shows the number of library facilities that were identified in secondary sources and matched to the FLICS' modified universe file, but which are not on the final survey frame (FLIC_94F.DBF). The fourteen facilities with an incorrect "in-scope" activity code reflect that this field was not updated when they were determined to be out-of-scope. See Appendix C for a listing of those facilities.

Combined "Who Should Respond" Replies ¹	Total	Activity Code (ACT) ²				
		In-Scope Activity Code			Generic Out-of-Scope Activity Code (O)	Blank
		Total	Active (b)	Active- Add (A)		
Total	312	14	12	2	219	79
N,N,N,N.....	1	0	0	0	1	0
N,N,Y,Y.....	10	0	0	0	10	0
N,Y,Y,Y.....	8	1	1	0	7	0
N, m,m,m.....	10	0	0	0	10	0
Y,N,Y,Y.....	47	0	0	0	47	0
Y,Y,N,N.....	6	0	0	0	6	0
Y,Y,N,Y.....	4	0	0	0	4	0
Y,Y,Y,N.....	4	0	0	0	4	0
Y,Y,Y,Y.....	12	4	4	0	8	0
m,N,m,m.....	1	0	0	0	1	0
m,m,m,m.....	209	9	7	2	121	79

¹Each letter corresponds to the answer to the four "Who Should Respond" questions on the survey forms. The letter "m" stands for a missing value in the file. Question 1 is divided into two parts on the Locator Survey form, but they are combined in this table (e.g., a "Yes" reply to either part is shown as "Y" in this table). See Chapter 2 for a description of the four "Who Should Respond" questions.

CHAPTER 5. EXPLORING THE DEFINITION OF "FEDERAL"

This chapter evaluates the FLICS' definition of "federal" as applied to its coverage of libraries. In addition to the three branches of government, the federal government comprises a variety of semi-autonomous agencies ranging from the Administrative Conference of the United States to the U.S. Postal Service. These are often referred to as off-budget entities, independent agencies, quasi-official agencies, and government-sponsored enterprises.

The evaluation of the FLICS' definition of "federal" revealed that it was not clearly defined and relied in part on uncorroborated information and judgments by the respondent that were not questioned. This definition consisted of the following two-part condition:¹⁶

The library facility had to be either: a) considered a federal government operation or b) receiving a majority (at least half) of its funding from federal appropriations

Both parts of this definition raise several potential difficulties in terms of achieving complete coverage of federal library facilities. First, a general definition based on being "considered" a federal activity is vague and differs from that used by other federal surveys. Second, relying on a facility's level of funding to determine whether it is a federal operation is also vague as well as subject to different interpretation. And, third, respondents were asked to categorize themselves as federal or not but no mechanism was in place to corroborate their response.

Section 5.0 Defining What is Considered a Member of the Federal Universe

The first criterion, being "considered a federal government operation," is one that (1) is open to different interpretations and (2) differs from the approach used by other members of the federal establishment. In determining whether a facility was "considered" a federal activity the FLICS relied primarily on the respondent.

This first criterion diverges from the methodology used by others in the federal establishment, viz. the

predefinition of agencies that comprise the federal universe. For instance, in its statistical surveys covering the finances and employment of the public sector, the Census Bureau regularly examines the structure of the various levels of government, including that of the federal government. This examination is conducted in order to identify those agencies that are included--and excluded--from a government's activities for purposes of its statistical surveys. For the largest governments these findings are incorporated into "dependent agency listings" for the parent government. The Census Bureau's dependent agency listing for the federal government is provided in Appendix F.

A comparison was made between the Census Bureau's dependent agency listing and the FLICS' final survey frame. Definitional differences between the two surveys, however, made it difficult to determine whether any libraries on the panel did not belong there. The obverse of this comparison, identifying missing libraries, was not possible because the census dependent agency listing provides no information on whether an organization operates a library.

Another major source that has predefined the federal universe is a document entitled *Codes for the Identification of Federal and Federally Assisted Organizations* (FIPS PUB 95-1), commonly referred to as FIPS-95. Other available lists for determining the scope of federal agencies include the U.S. Government Manual¹⁷ and the U.S. Budget Appendix.

It should be noted that these various sources do not always agree with each other. For instance, Gallaudet University is classified as a private institution for the Census Bureau's public sector surveys and its employees are treated as nonfederal by the Office of Personnel Administration. But both FIPS-95 and the U.S. Government Manual list Gallaudet as a "Federally Aided Organization," a category that the former describes as "domestic and nonfederal and ... receiving some form of financial support." Future FLIC surveys will need to address these inconsistencies in developing its federal universe.

The drawbacks of both relying on self-classification and lacking a systematic classification scheme can be illustrated by reviewing the treatment of fifteen libraries operated by Federal Reserve Banks. These

¹⁶Based on question 3 from four-part screening section (Who Should Respond) on the survey form (Form FLIC, p. 97).

¹⁷The U.S. Government Manual was used in the FLICS as a source of potential survey candidates, but not to define the universe or make classification rulings.

fifteen library facilities, representing 1.2 percent of the final survey frame, were ruled out-of-scope for the FLICS.¹⁸ Most of the banks declared themselves non-federal agencies, based on a review of the "Who Should Respond" fields or notes made by the survey staff. That is, their interpretation of the FLICS criteria for being a federal operation was that they were not considered federal. This is not an unreasonable interpretation. The Federal Reserve Banks do possess a number of private characteristics. For instance, they are owned by the member banks in their region. Neither FIPS-95 nor the Budget Appendix include the Federal Reserve Banks, limiting their scope of the Federal Reserve System to its Board of Governors. The U.S. Office of Personnel Management does not include their employees in its statistics on federal employment.¹⁹

On the other hand, a broader interpretation of the purpose of the FLICS could lead to a different interpretation. That is to say, if the purpose of NCES' various library surveys is to capture the activities of all library activities in the country, then the libraries operated by the Federal Reserve Banks need to be categorized somewhere in its universe. No other NCES library survey appears to be canvassing these library facilities. Consequently, the most appropriate place to classify them may be the federal library survey frame.

In summary, the FLICS' approach to defining the universe of federal agencies lacked a systematic methodology. Future surveys should take advantage of the work done by these other areas of the federal government. This could involve adopting an existing classification scheme or modifying one in some systematic manner.

¹⁸The two libraries operated by the Federal Reserve Board of Governors were left in the final survey frame, neither is classed as a "headquarters" library. Appendix B lists two additional Federal Reserve Banks that could not be matched to the FLICS.

¹⁹Yet, quoting from a report issued by the Board of Governors, "Congress chartered the Federal Reserve Banks for a public purpose. The Reserve Banks are the operating arms of the central banking system, and they combine both public and private elements in their makeup and organization. As part of the Federal Reserve System, the Banks are subject to oversight by Congress[.]" (Source: *The Federal Reserve System, Purposes and Functions*, Board of Governors of the Federal Reserve System, Washington, DC, 1994).

Section 5.1 Limitations of Basing Definition of Federal Universe on Level of Funding

The second part of the FLICS' criteria of the federal universe created an open-ended definition of a universe that raises a number of coverage issues.

First, the survey's intention for adopting this funding requirement is not clear.²⁰ On its surface, it would make eligible for inclusion any private library facility that received a majority of its funding from the federal government. If so, then it raised major obstacles to achieving a complete and accurate universe. For example, the major sources used to construct the FLICS' universe (listed in Appendix D) focused primarily on those operated by federal agencies rather than private facilities operating under contract for a federal agency. Thus, identifying the complete universe becomes problematic without conducting a separate survey of private libraries to determine their source of funding. If the intent of the FLICS was to canvass such private libraries, then the ones that do appear on the survey frame can only be said to represent an unknown fraction of the total number that qualify. Moreover, estimating any potential undercount is not possible.

Another aspect of this funding-based criterion is that there are organizations (such as nonprofits) that receive half or more of all their funding from federal sources and which also operate libraries. While the definition of "federal" was probably not meant to cover these facilities, this is not made clear. Further, adding them to the FLICS survey frame would be difficult without first identifying all such organizations and canvassing them to see if they operate libraries.

Including private and/or other public libraries that are largely federally funded also increases the possibility of duplication with other NCES library surveys. That is, coverage among the various NCES library surveys would not be mutually exclusive.²¹

²⁰The FLICS staff indicated that the funding criterion was meant to include GOCO's (Government Owned, Contractor Operated) libraries, but to exclude private or federal agency-contracted libraries that were not GOCO's (such as Mitre Co. and Rand Corp. type libraries). This limitation, however, is not apparent in the definition supplied to respondents.

²¹This evaluation detected overlap between two NCES library surveys. 12 academic libraries appear in both the 1994 FLICS and the 1994 IPEDS Academic Library Survey file. Table 5-1 lists these 12 academic libraries.

Section 5.2 Reliance on Self-Classification and Lack of Corroborating Information

The FLICS relied in large degree on respondents to determine whether they met the survey's criteria for membership in its federal universe. Although self-reporting and self-classification are common in statistical surveys, it is important nonetheless to develop methodological procedures that allow these responses to be confirmed as needed. The degree of accuracy of returns from FLICS respondents asked to self-report on the survey's inclusion criteria is unknown.

For instance, one procedure that could be adopted is an edit check where any library facility that fails only the federal universe screening criteria receives additional follow-up.²² This follow-up procedure would involve comparing the agency involved to any of the established listings of federal agencies cited above. If

it is on the listing, then the respondents self-classification should be overruled and the facility left in the survey frame.

The FLICS survey instrument did not collect information allowing the funding criterion to be corroborated. The questionnaire asked for expenditure data, but did not request data on source of funding, making it impossible to confirm whether half or more of its budget was federally-supported. Moreover, if a library reported that it did not meet the federal funding criterion, there was no way to confirm that fact since the respondent was not asked to provide any other information on the questionnaire.

Finally, asking a respondent to identify itself as a federal agency provides an opportunity for a quasi-independent entity to avoid completing the ten-page survey form simply by declaring itself non-federal.

²²Additional analysis of this issue was limited by incomplete data in the universe file. For instance, evaluation plans included querying the universe file to identify all library facilities that failed only the federal agency criterion (WhoRsp3) and comparing these selected facilities to the Census Bureau dependent agency listing to identify possibly misclassified facilities. Data for the four "Who Should Respond" questions (WhoRsp1--WhoRsp4) were missing for too many out-of-scope records to produce any meaningful results.

**Table 5-1. Federal Library Facilities Appearing on Both FLICS
and Academic Library Survey Frames**

This table shows the 12 academy libraries that appear on both the federal library survey frame and the 1994 academic library file. "UnitID" is the ID number in the academic file.

CHAPTER 6. METHODOLOGY

This chapter provides more detailed technical notes behind the findings discussed in Chapters 1 through 5.

Section 6.0 Conversion of FLICS' dBase Files into SAS Data Files

The evaluation project used seven data base files obtained from the Census Bureau survey staff who conducted the survey plus one specially created for this evaluation. These files, and the terms used for them in this report, are as follows:

Preuniverse files comprised four separate files: a pretest survey (Pret_Upd.DBF), locator survey (NonPret.DBF), and two special add files (Agency.DBF and UnivAds.DBF). These four files contained a total of 3,244 records.

Universe file (94Univ1.DBF) comprised the original listing of 3,244 possible federal library facilities to canvass.

Modified universe file was specially created for this evaluation. It consisted of the universe file above to which the modifications described below were applied. It contained a total of 3,397 records.

Full scale survey file (FLIC_94.DBF) comprised the 1,571 facilities that were canvassed during the FLICS, 337 of which were later ruled out-of-scope.

Final survey frame file (FLIC_94F.DBF) comprised the 1,234 surveyed federal library facilities that met all the requirements for inclusion. These libraries were the basis for the NCES report, "Federal Libraries and Information Centers in the United States: 1994."

The dBase files above were converted into separate SAS datasets for analytical purposes.

Section 6.1 Comparisons of In-Scope and Out-of-Scope Federal Library Facilities

These tabulations were produced in SAS and were based on a modified version of the federal library survey universe file (94Univ1.DBF). The biggest obstacle to creating these tabulations was the lack of a clean, updated universe file. The universe file was missing 153 facilities that were in the full-scale survey file, 108 of which were in the final survey file as well. It also lacked the responses to the four "Who Should

Respond" questions that were asked in the pretest, locator, and final surveys.²³ Also, the universe file was not updated with information collected in the final survey.

Consequently, creating these tabulations first required construction of a modified universe file, as follows. First, the 153 libraries in the full scale survey file (FLIC_94.DBF), but missing from the universe file, were combined with the universe file to create a new master universe dataset. Second, the four "Who Should Respond" fields from the four pre-universe files were added to this master universe file. Third, a field was created (FinalFlg) to indicate whether the library was included in the final survey file. This field is the basis for the "On Final Survey Frame" and "Not on Final Survey Frame" columns in the tabulations. Another field was created to flag the 822 purposely-excluded facilities. Finally, the master universe file was updated with information from the 1,571 records in the full scale survey file. This special dataset was dubbed the "modified universe."

Three of the four pre-universe files divided the first "Who Should Respond" question into two parts (NonPret.DBF, Agency.DBF, and UnivAds.DBF). To create a combined "Who Should Respond" field in the modified universe file, responses to these two parts were combined as follows:

IF 1A or 1B = 1	THEN	Combined response equals 1 (Y)
IF 1A = 2 and 1B = 2	THEN	Combined response equals 2 (N)
IF 1A and 1B are blank	THEN	Combined response is blank (b)
IF 1A = 2 and 1B is blank	THEN	Combined response equals 2 (N)
IF 1A is blank and 1B = 2	THEN	Combined response equals 2 (N)

²³The "Who Should Respond" (WhoRsp) questions corresponded to the four-part criteria for inclusion in the FLICS, cited in full on page 5. In brief, the questions were (1) Is the facility a library or information center (database field WhoRsp1), (2) is the facility staffed (WhoRsp2), (3) is the facility a federal operation (WhoRsp3), and (4) does the facility support or supply information to its agency (WhoRsp4).

One record had an invalid value of "3" in the WhoRsp3 field; this was changed to a "1" since the other three WhoRsp fields had that value.

In the combined "Who Should Respond" field, "Y" represents a 1 (Yes response), "N" represents a 2 (No) and "m" represents a missing value (no data in field).

Section 6.2 Testing Assumptions for Exclusion of Selected Federal School Libraries

The purposely-excluded BIA and DOD elementary/secondary school libraries were compared to other school library files, as follows:

1. The three files from the 1993-94 School Library Media Centers Survey:
 - LMC Indian (160 records)
 - LMC Private (2,535 records): sample file, not universe.
 - LMC Public (5,026 records): sample file, not universe.
2. The academic library file: 1994 IPEDS Academic Library Survey (4,094 records).
3. The public library file: PubLib94.DBF (8,921 records).

The 181 Bureau of Indian Affairs school libraries were extracted from the Federal Libraries and Information Centers Survey modified universe SAS dataset using these selection criteria:

DeptCode = "060" and AgencyCode = '010' and
FedLibID NE '060010 332' and
FedLibID NE '060010 473' and
FedLibID NE '060010 804' and
FedLibID NE '060010 2594'

The Indian schools extracted from the FLICS were difficult to match to the above library files because there was no common link (e.g., an ID number). Instead, the names and addresses, which differed considerably between files, were compared.

None of the 22 BIA libraries in Table 3-1 were in the 1994 Public Library Survey file.

The 228 school libraries operated by the Department of Defense and excluded from the final survey frame were extracted from the modified universe SAS dataset using the following selection criterion:

IF SRCEID = '006'

None of the 18 DOD school libraries with a domestic address were in the school library media center survey (either LMC Public or SASS Public, both of which are sample surveys).

Section 6.3 Comparing FLICS Universe to Secondary Directories of Federal Libraries

Libraries listed in the secondary sources shown in Appendix E were compared first to the universe file (94Univ1.DBF). Some of the secondary sources were ones that the survey staff had obtained, but did not use. Others were found after a search of the reference material in the Census Bureau main library. A search of the Internet located only one useful source.

Matching these secondary sources to the universe file proved to be a time-consuming and inexact task because the only common links between the two were library name, address, and in some cases telephone number. If a library in a secondary source was successfully matched to the universe file, that record was flagged with a special code in a new field indicating which source listed the facility. If a library was matched to more than one source, that information was noted, too. If a facility in a secondary source did not appear in the universe file, it was added to a special list with a flag noting the source from which it originated.

The matching process encountered two additional problems beyond the lack of common keys. First, the secondary sources were not limited to federal libraries, but include private and other public facilities as well. Federal libraries were often not identified as such. Some sources used codes to indicate the type of library, but these proved to be unreliable as some federal libraries showed up under multiple codes. For example, Bowker's directory had a code to indicate government libraries (G), but federal libraries were also flagged as Armed Forces libraries (A), special libraries (S), law libraries (L), and in a few cases as state libraries (C). As a consequence, secondary sources had to be reviewed listing-by-listing to determine whether a library was federal.

Second, the secondary sources often listed multiple library facilities for an agency that in the FLICS universe file consisted of a single record. In some cases the universe file also indicated that this single facility was a "headquarters" respondent whose final survey form included data for other library facilities.

In those cases, the survey form was reviewed to determine whether the headquarters library was reporting the additional facilities in the secondary sources. Unfortunately, only half of the headquarters libraries identified the units they were including in their response. Moreover, some agencies with multiple listings in the secondary sources were not flagged as operating a headquarters library in the universe file. In those cases, it was impossible to determine whether the facilities were missing from the FLICS panel or the record in the FLICS universe incorrectly classified them as an autonomous library.

The review of all the available secondary sources identified 295 facilities that could not be matched to the FLICS universe file. Additional research eliminated 73 of these (e.g., some turned out to be reported elsewhere, while others were determined to be non-federal facilities), leaving a balance of 222 facilities. This list was then submitted to the FLICS staff for review. They were able to determine that 33 were being reported elsewhere. This resulted in the final list of 189 unmatched library facilities listed in Appendix B.

During this comparison of sources, over 41 percent (1,413) of the library facilities in the universe file were matched to one or more secondary source. Since this exceeds the number of libraries in the final survey frame (1,234), they were also compared to the final survey frame (FLIC_94F.DBF) using the FedLibID as a key. This match revealed that 312 of these 1,413 libraries (22 percent) did not make it to the final survey frame.²⁴ Stated differently, these were listed as bona fide libraries in two or more directories of federal libraries, but still failed to qualify for the final survey frame. The lack of data on the critical "Who Should Respond" questions prevented determination of why they were excluded. The 312 facilities matched to secondary source but not in the final survey frame are listed in Appendix C.

²⁴An additional 161 facilities were found in secondary sources and matched to the universe file but could not be located in the final survey frame. These, however, had activity codes indicating that they were combined with another facility, a duplicate or closed, or purposely-excluded.

Section 6.4 Exploring FLICS' Definition of "Federal"

The FLICS' definition of "federal" was examined from several angles. First, the 1,234 library facilities in the final survey frame were reviewed in order to identify agencies that did not appear to be federal ones. These results proved to be inconclusive because the survey's criteria for inclusion covered library facilities whose budget was at least half paid by federal funds. Moreover, there was no way to verify this information because the survey instrument did not ask for source of funding data in its Expenditures section (part H).

Second, the Census Bureau's Dependent Agency Listing for the Federal Government (reprinted here as Appendix F) was compared to the final survey frame. This proved inclusive for a number of reasons. One was the open-ended criterion for being a federal agency mentioned in the previous paragraph. Also, being cited on the Bureau's Dependent Agency listing is no guarantee that an agency operates a library. Further, a number of facilities in the Dependent Agency listing were in the universe file, but not the final survey frame (e.g., Botanic Gardens and Foreign Claims Settlement Commission). The lack of data for the four "Who Should Respond" questions precluded answers as to why they failed to qualify. If they were excluded only because the facility answered "No" to the third WhoRsp question ("Are you a federal agency"), then these facilities should have stayed on the final survey frame.

Third, another limitation of this fluid definition of "federal" is the risk of duplicating other NCES-sponsored library surveys. To evaluate this possibility, the final survey frame was searched for academic libraries (using the Name1 and Name2 fields). Twenty-six libraries on the panel that appeared connected to federal academic institutions were compared to the 1994 academic library survey file, twelve of which were found to be on both files.

Lack of data for the four "Who Should Respond" questions also prevented querying the out-of-scopes for those that failed only the third criterion. This would have allowed comparison with the Census Bureau listing of federal agencies and activities.

APPENDIX A

Listing of Purposely-Excluded Federal Library Facilities

The 1994 Federal Libraries and Information Centers Survey purposely excluded from its final survey frame 822 facilities that were on its universe file. This appendix lists these facilities. They are sorted by type of facility and by name.

APPENDIX C

Federal Library Facilities Found in Secondary Directories That Are on the Universe File, But Not the Final Survey Frame

This appendix lists the 312 library facilities that were identified in secondary sources and matched to the FLICS universe file but which did not qualify for the final survey frame (FLIC_94F.DBF). It is sorted by activity code and name. Asterisks after the FedLibID indicate the 81 facilities that made it to the full scale survey file (FLIC_94.DBF) but not the final one.

Guide to Secondary Source Codes (See Appendix E for complete citation)

B = R.R. Bowker's American Library Directory

G = Gale's Directory of Special Libraries and Information Centers

D = Defense Technical Information Centers (DTIC) files of customers and data users

M = NASA's Major Global Change Resources in Federal Agency Libraries and Information Centers

Guide to Activity Codes

0 = Out-of-Scope, NEC

A = Active facility, added during current year

b = Active facility, not a current year add

Each letter corresponds to the answer to the four "Who Should Respond" questions on the Survey Form. The letter "m" represents a missing value in the data file. The first question was divided into two parts on the Locator Survey form, but were combined in this table (e.g., a "Yes" reply to either part is shown as "Y" in this table).

APPENDIX D

Major Sources Used to Construct FLICS Universe File

The FLICS used the following sources to compile its universe of library facilities. The numbers in parenthesis show the number of records in the universe file (modified version) from that source followed by the number that appear in the final survey frame. The sources are listed in descending order of records in the universe file.

Oryx Press, *1993 Directory of Federal Libraries* (2,435,982) - dBase version of published report

U.S. Department of Defense, List of Defense-Operated Elementary-Secondary Schools (228,0)*

Library of Congress, Federal Library and Information Network (FEDLINK) Mailing List (188,75)

National Archives and Records Administration, Office of the Federal Register, *The United States Government Manual, 1993/1994* (172,13)

U.S. Department of Health and Human Resources, National Institute of Health, Federal Health Care Libraries Directory (149,32)

U.S. Department of Defense, Department of the Navy, Libraries List (17,6)

U.S. Nuclear Regulatory Commission, Office of the Secretary, Government Agencies with Public Document Rooms List (12,6)

U.S. Department of Defense, Department of the Air Force, Library and Information Systems (LIS) Address List (5,2)

All Other Sources, NEC (191,118)

*These libraries were purposely excluded from the final survey frame

APPENDIX E

Secondary Directories Used for Comparison to FLICS Universe

The following sources listing federal libraries were compared to the FLICS universe file:

Bowker, R.R., *1993-94 American Library Directory*, 46th ed., (New Providence, NJ, 1993).

Defense Technical Information Center Dbase files listing 1,135 customers and major data users (limited usefulness as it includes more than just libraries and information centers).

Gale Research, Inc., *1996 Directory of Special Libraries and Information Centers*, 19th ed., (Detroit, MI, 1996).

U.S. Department of Education, Office of Educational Research and Improvement, *OERI's Labs and Centers*.

U.S. National Aeronautics and Space Administration (NASA), *Major Global Change Resources in Federal Agency Libraries and Information Centers* (Internet source obtained from the following site:
<http://cesdis.gsfc.nasa.gov/pub/usgcrp/gedis/gclibr.html>).

APPENDIX F

Census Bureau Listing of Dependent Agencies and Institutions for the Federal Government

One phase of the Census Bureau's program to collect finance and employment statistics on federal, state, and local governments is the identification of the various agencies and institutions that comprise the activities of the largest governments. This appendix provides the Census Bureau's listing of agencies and institutions that are included in its statistics on the federal government.

Bureau of the Census February 1985
Rev. Jun. 1995
Governments Division

Part A Checklist of DEPENDENT AGENCIES for Governments Division surveys

UNITED STATES (FEDERAL) GOVERNMENT
(ID: 00 6 000 000)

Capital: Washington DC Fiscal year ending
date: September 30.

AGENCY OR INSTITUTION:

SOURCE:

LEGISLATIVE BODY--Congress of the United States:

Upper house--Senate Lower house--House of
Representatives

CHIEF EXECUTIVE--President of the United States (is both head of State and head of government; is classified as an elected official even though selected by electors rather than being directly elected by the people)

COURTS:

Court of last resort--United States Supreme Court
Intermediate appellate court--United States Courts of Appeals

Courts of general jurisdiction:
United States District Courts (incl. territorial courts) 1

Courts of limited or special jurisdiction:
United States Court of Federal Claims
United States Court of Appeals for Federal Circuit
United States Court of International Trade
United States Court of Military Appeals
United States Court of Veterans' Appeals
United States Tax Court

DEPENDENT PUBLIC SCHOOL SYSTEMS--none
INSTITUTIONS--see list of federal institutions.

OTHER DEPENDENT AGENCIES--LEGISLATIVE
BRANCH 2

Architect of the Capitol
Botanic Garden
Congressional Budget Office
General Accounting Office
Government Printing Office
Library of Congress (including Congressional
Research Service and Copyright Office)
Office of Technology Assessment
U.S. Capitol Police

OTHER DEPENDENT AGENCIES--JUDICIAL
BRANCH 2

Administrative Office of the United States Courts
Federal Judicial Center
U.S. Sentencing Commission

OTHER DEPENDENT AGENCIES--EXECUTIVE
BRANCH

Executive Office of the President:
Council of Economic Advisers
Council on Environmental Quality
National Security Council
Office of Administration
Office of Management and Budget (OMB)
Office of National Drug Control Policy
Office of Science and Technology Policy
Office of U.S. Trade Representative
Office of Vice President of the United States
White House Office (including the President)

Cabinet departments: 3

Department of Agriculture:
Agricultural Cooperative Service
Agricultural Marketing Service
Agricultural Research Service
Agricultural Stabilization and Conservation
Service
Animal and Plant Health Inspection Service

Board of Contract Appeals
Commodity Credit Corporation 4

Cooperative State Research Service

Department of Agriculture Graduate School

Economic Research Service
 Extension Service
 Farmers Home Administration
 Federal Crop Insurance Corporation 4
 Federal Grain Inspection Service
 Food and Nutrition Service
 Food Safety and Inspection Service
 Foreign Agricultural Service
 Forest Service (including Youth Conservation Corps)
 National Agricultural Library
 National Agricultural Statistics Service
 Office of Administrative Law Judges
 Office of Consumer Advisor
 Office of Energy
 Packers and Stockyards Administration
 Rural Development Administration
 Rural Electrification Administration
 Rural Telephone Bank 4
 Soil Conservation Service
 World Agricultural Outlook Board

Department of Commerce:

Bureau of the Census
 Bureau of Economic Analysis
 Bureau of Export Administration
 Economic Development Administration
 International Trade Administration
 Minority Business Development Agency
 National Institute of Standards and Technology
 National Oceanic and Atmospheric Administration
 National Technical Information Service
 National Telecommunications and Information Administration
 Patent and Trademark Office
 U.S. Travel and Tourism Administration

Department of Defense: 5

Department of the Air Force (including U.S. Air Force Academy and all air Force schools, hospitals and prisons)
 Department of the Army (including U.S. Military Academy and all Army schools, hospitals and prisons)
 Corps of Engineers 6
 Department of the Navy (including U.S. Naval Academy and all Navy schools, hospitals and prisons)
 U.S. Marine Corps
 Joint Chiefs of Staff
 Other Dept. of Defense agencies under the Secretary, including joint service schools, one of which is--

Uniformed Services Univ. of Health Sciences (Bethesda MD)

Civilian activities:

Cemeteries (Arlington National only)
 Soldiers' and Airmen's Home, Washington DC

Department of Education:

Office of Bilingual Education and Minority Languages Affairs
 Office of Civil Rights
 Office of Educational Research and Improvement
 National Center for Education Statistics (NCES)
 Office of Elementary and Secondary Education
 Office of Postsecondary Education
 Office of Special Education and Rehabilitative Services
 Office of Vocational and Adult Education

Department of Energy:

Assistant Secretary for Energy Efficiency and Renewable Energy
 Assistant Energy for Defense Programs
 Assistant Secretary for Fossil Energy
 Assistant Secretary for Nuclear Energy
 Assistant Secretary for Policy, Safety, and Environment
 Energy Information Administration
 Office of Civilian Radioactive Waste Management
 Office of Energy Research
 Office of Nonproliferation and National Security
 Office of Science Education and Technical Information
 Power administrations (5--Alaska, Bonneville, Southeastern, Southwestern, and Western Area)

Department of Health and Human Services:

Administration on Aging
 Administration for Children and Families
 Health Care Financing Administration
 Office of Child Support Enforcement
 Office of Community Services
 Office of Human Development Services
 Public Health Service:
 Agency for Toxic Substances and Disease Registry
 Centers for Disease Control
 Food and Drug Administration
 Health Resources and Services Administration 7
 Indian Health Service
 National Institutes of Health
 Social Security Administration
 Substance Abuse and Mental Health Services Administration 7

Department of Housing and Urban Development 8

Asst. Secy. for Community Planning and Development
Asst. Secy. for Fair Housing and Equal Opportunity
Asst. Secy. for Field Management
Asst. Secy. for Housing (formerly FHA--Federal Housing Admin.)
Asst. Secy. for Policy Development and Research
Asst. Secy. for Public and Indian Housing
Government National Mortgage Association (GNMA) 4

Department of the Interior:

Bureau of Indian Affairs 7
Bureau of Land Management
Bureau of Mines
Bureau of Reclamation
Fish and Wildlife Service
Geological Survey
International and Territorial Affairs, Assistant Secretary for (administers overseas U.S. territories and possessions)
Minerals Management Service
National Biological Survey
National Park Service 9
Office of Surface Mining Reclamation and Enforcement

Department of Justice: 7

Bureau of Prisons (all civilian federal prisons)
Federal Prison Industries, Inc. 4
Community Relations Service
Drug Enforcement Administration
Federal Bureau of Investigation (FBI)
Foreign Claims Settlement Commission
Immigration and Naturalization Service
Legal activities (incl. Antitrust, Civil, Civil Rights, Criminal, Environment and Natural Resources, and Tax Divisions)
National Institute of Justice 7
Office of Justice Assistance
Office of Justice Programs (including Bureau of Justice Statistics and Office of Juvenile Justice and Delinquency Prevention)
U.S. Attorneys and U.S. Marshals 10
U.S. National Central Bureau (represents the U.S. in Interpol)
U.S. Parole Commission
U.S. Trustees

Department of Labor:

Bureau of International Labor Affairs
Bureau of Labor Statistics

Employment and Training Administration
Employment Standards Administration
Mine Safety and Health Administration
Occupational Safety and Health Administration
Office of The American Workplace
Pension and Welfare Benefit Programs Administration
Veterans Employment and Training Service
Women's Bureau

Department of State:

Bureau of African Affairs
Bureau of Consular Affairs
Bureau of East Asian and Pacific Affairs
Bureau of Economic and Business Affairs
Bureau of European and Canadian Affairs
Bureau of Human Rights and Humanitarian Affairs
Bureau of Intelligence and Research
Bureau of Inter-American Affairs
Bureau of International Communications and Information Policy
Bureau of International Narcotics Matters
Bureau of International Organization Affairs
Bureau of Near Eastern and South-Asian Affairs
Bureau of Oceans and Int'l Environmental and Scientific Affairs
Bureau of Politico-Military Affairs
Bureau of Public Affairs
Bureau for Refugee Programs
Foreign Service (and Foreign Service Institute)
Office of Protocol
Office of U.S. Ambassador to the United Nations

Department of Transportation:

Bureau of Transportation Statistics
Federal Aviation Administration (FAA) 11
Federal Highway Administration
Federal Railroad Administration
Federal Transit Administration
Maritime Administration 7
National Highway Traffic Safety Administration
Research and Special Programs Administration
St. Lawrence Seaway Development Corporation 12
U.S. Coast Guard (is under Dept. of the Navy in wartime)

Department of the Treasury:

Bureau of Alcohol Tobacco and Firearms
Bureau of Engraving and Printing
Bureau of Public Debt (issues all U.S. Treasury obligations, including U.S. Savings Bonds)
Comptroller of the Currency

Federal Financing Bank
 Federal Law Enforcement Training Center
 Financial Management Service
 Internal Revenue Service (IRS)
 Office of Thrift Supervision
 U.S. Customs Service
 U.S. Mint
 U.S. Secret Service

Dept. of Veterans Affairs (VA; incl. VA Medical
 Centers, VA nursing homes, and VA domiciliaries)

7

OTHER FEDERAL AGENCIES

(some smaller boards, commissions, and offices are
 omitted)

Administrative Conference of the U.S.
 Advisory Comm. on Intergov. Relations
 African Development Foundation
 Commission on Civil Rights
 Commodity Futures Trading Commission
 Consumer Product Safety Commission
 Corporation for National and Community Service
 (formerly ACTION)
 Defense Nuclear Facilities Safety Board
 Environmental Protection Agency (including Asst.
 Administrators for Air and Radiation, Pesticides and
 toxic Substances, Research and Development, Solid
 Waste and Emergency Response, and Water)
 Equal Employment Opportunity Commission
 Export-Import Bank of the United States
 Farm Credit Administration
 Federal Communications Commission
 Federal Deposit Insurance Corp. 4
 Federal Election Commission
 Federal Emergency Management Agency
 Federal Housing Finance Board (including
 oversight of Federal Home Loan Banks)
 Federal Labor Relations Authority
 Federal Maritime Commission
 Federal Mediation and Conciliation Serv.
 Federal Mine Safety and Health Review Commission
 Federal Reserve System
 Federal Retirement Thrift Investment Board
 Federal Trade Commission
 General Services Admin. (GSA; including
 Information Resources Management Service, Federal
 Supply Service, Public Buildings Service, and
 Federal Property Resources Service) 4
 Inter-American Foundation 4
 Interstate Commerce Commission
 Merit Systems Protective Board
 Nat'l Aeronautics and Space Administration
 National Archives and Records Administration

National Capital Planning Commission
 National Credit Union Administration
 Nat'l Foundation on Arts & Humanities:
 National Endowment for the Arts
 National Endowment for the Humanities
 Institute of Museum Services
 National Labor Relations Board
 National Mediation Board
 National Science Foundation
 National Transportation Safety Board
 Nuclear Regulatory Commission
 Occupational Safety and Health Review Commission
 Office of Government Ethics
 Office of Personnel Management (OPM)
 Reorg Plan 2 (1978)
 Office of Special Counsel
 Panama Canal Commission (to 1999 only)
 Peace Corps
 Pennsylvania Avenue Development Corp. 4
 Pension Benefit Guaranty Corporation 4
 Postal Rate Commission
 Railroad Retirement Board
 Securities and Exchange Commission
 Selective Service System
 Small Business Administration
 Smithsonian Institution: 13
 Operates several museums and other facilities in
 Washington DC, plus the following facilities
 elsewhere:
 Chesapeake Bay Center for Environmental
 Studies (Edgewater, MD)
 Cooper-Hewitt Museum (New York, NY)
 Radiation Biology Lab. (Rockville, MD)
 Smithsonian Astrophysical Observatory
 (Cambridge MA)
 Smithsonian Tropical Research Institute
 (Panama)
 Administered by Smithsonian Institution but
 overned by separate boards:
 John F. Kennedy Center for the Performing
 Arts (building maintained by Department
 of the Interior)
 National Gallery of Art
 Woodrow Wilson International Center for
 Scholars
 Tennessee Valley Authority (TVA) 4
 Thrift Depositor Protection Oversight Board
 U.S. Arms Control and Disarmament Agency
 U.S. Holocaust Memorial Council
 U.S. International Development Cooperation
 Agency:
 Agency for International Development
 Overseas Private Investment Corporation
 Trade and Development Agency

U.S. Information Agency (USIA)
U.S. International Trade Commission
U.S. Postal Service

Sources: Budget of the United States Government, FY 1983, appendix; United States Government Manual, 1994-95; United States Code; Office of Personnel Management, Federal Civilian Workforce Statistics Monthly Release, November 1981.

The following federal agencies are excluded from census statistics on governments, because of the classified nature of their activities:

Central Intelligence Agency
National Security Agency

INTERNATIONAL GOVERNMENTAL ORGANIZATIONS

Listed below are international organizations representing national governments of two or more nations and to which the United States contributes. Private international organizations are excluded. Also excluded are international organizations representing solely state, provincial, or local governments in two or more countries.

Pick up only the federal payments for the U. S. share of the support of these organizations (at codes 08 or 13, as appropriate). EXCLUDE transactions of international governmental organizations themselves.

United Nations (UN) and affiliated agencies:
Food and Agriculture Organization (FAO)
International Atomic Energy Agency (IAEA)
Int'l Bank for Reconstruction & Development
(World Bank):
International Development Association (IDA)
International Finance Corporation (IFC)
International Civil Aviation Organization (ICAO)
International Court of Justice
International Labor Organization (ILO)
International Maritime Organization
International Monetary Fund (IMF)
International Telecommunication Union (ITU)
United Nations Industrial Development
Organization
Universal Postal Union (UPU)
World Health Organization (WHO)
World Intellectual Property Organization
World Meteorological Organization

Inter-American organizations:
Inter-American Indian Institute

Inter-American Institute for Cooperation on
Agriculture
Organization of American States (OAS)
Pan American Health Organization
Pan American Institute of Geography and History
Pan American Railway Congress Association
Postal Union of the Americas and Spain and
Portugal

Multilateral development banks (for World Bank,
see under United Nations):
African Development Bank
Asian Development Bank
Inter-American Development Bank
International Fund for Agricultural Development

Regional organizations:
Colombo Plan Council for Technical Cooperation
North Atlantic Assembly
North Atlantic Treaty Organization (NATO)
Organization for Economic Cooperation and
Development
South Pacific Commission

Bilateral commissions with adjacent countries:
Int'l Boundary and Water Commission (U.S. and
Mexico)
International Boundary Commission (U.S. and
Canada)
International Joint Commission (U.S. and Canada)
Joint Mexican-U.S. Defense Commission
Permanent Joint Board on Defence--U.S. and
Canada

Fisheries commissions:
Commission for the Conservation of Antarctic
Marine Living Resources
Great Lakes Fishery Commission
Inter-American Tropical Tuna Commission
International Council for the Exploration of the
Seas
International North Pacific Fisheries Commission
International Whaling Commission
North Atlantic Salmon Conservation Organization

Other international governmental organizations:
Bureau of International Expositions
Customs Cooperation Council
Fund for the Protection of the World Cultural and
Natural Heritage
General Agreement on Tariffs and Trade (GATT)
Hague Conference on Private International Law
International Agency for Research on Cancer
International Bureau of the Permanent Court of
Arbitration

International Bureau for the Publication of
Customs Tariffs
International Bureau of Weights and Measures
International Center for the Study of the
Preservation and
Restoration of Cultural Property
International Coffee Organization
International Cotton Advisory Committee
International Council of Scientific Unions
International Criminal Police Organization
International Hydrographic Organization
International Institute for Cotton
International Institute for the Unification of
Private Law
International Jute Organization
International Lead and Zinc Study Group
International Natural Rubber Organization
International Office for Epizootics
International Office of the Vine and Wine
International Organization for Legal Metrology
International Rubber Study Group
International Seed Testing Association
International Sugar Organization
International Tropical Timber Organization
Int'l Union for Protection of New Varieties of
Plants
International Wheat Council
Interparliamentary Union
North Atlantic Ice Patrol
Permanent International Assn. of Navigation
Congresses
U.N. Compensation Commission
World Tourism Organization

Source: The Budget of the United States Government, FY 1983, appendix, pp. 1-D8 to 1-D 27 and pp. 1-P8 to 1-P14.

JOINT AGENCIES AND ACTIVITIES 14
(Federal and state; assign employees other than board members to state government shown in parentheses)

Name of agency:
Delaware River Basin Comm. (New Jersey)
Interstate Commission on the Potomac River
Basin (Maryland)
Susquehanna River Basin Commission
(Pennsylvania)

Sources: Federal budget; dependent agency listings for state governments.

The following is an independent municipal government:
District of Columbia 15

Source: GID file, municipal sector (municipalities in D. C.).

The following are independent special district governments:

Metropolitan Washington Airports Authority
Washington Metropolitan Area Transit Authority 15

Source: GID file, special district sector (districts serving D. C.).

The following is a partial list of PRIVATE entities that receive federal appropriations. Pick up federal payments to these entities, but do not pick up the transactions of these entities themselves. The Office of Personnel Management does not classify their staff as federal employees.

Name of entity

American Printing House for the Blind (Louisville, KY; 1879 law)
Corporation for Public Broadcasting (PBS)
Federal Agricultural Mortgage Corporation
Federal Home Loan Banks
Federal Home Loan Mortgage Corporation
Federal National Mortgage Association
(FNMA, or 'Fannie Mae')
Gallaudet University (incl. Kendall Demonstration
Elementary School and Model Secondary
School for the Deaf)
Howard University (created in 1867)
Legal Services Corporation
National Institute for Literacy
National Railroad Passenger Corp. (Amtrak) 16
National Technical Institute for the Deaf
(Rochester, NY; 1965 law)
Neighborhood Reinvestment Corporation 17
Securities Investor Protection Corporation
State Justice Institute
U.S. Institute of Peace

Sources: The Budget of the United States Government, FY 1983, appendix; The United States Government Manual, 1985-86; United States Code; List of FIPS codes of federal agencies, 1984.

ADMINISTRATIVE AREAS. The following types of 'districts' authorized by the United States code are federal administrative areas only; they are not counted as governments:

Type of district:
Congressional districts

Customs collection districts
 Farm credit districts
 Federal Reserve districts
 Grazing districts
 Internal Revenue districts
 Judicial districts
 Land districts

Footnotes:

1 In addition to judges, each district court has a clerk, one or more U.S. magistrates, bankruptcy judges, probation officers, court reporters, and their staffs. U.S. Attorneys and U.S. Marshals, who perform court-related functions, are under the Department of Justice.

2 Listing of agencies as 'legislative branch' or 'judicial branch' is based on of classifications used by the U.S. Government Manual, and do not necessarily relate to census functional categories.

3 Bureaus listed under each department include only those that are shown separately in the budget, or in FIPS federal agency lists.

4 This is a government corporation.

5 The National Guard receives both federal and state funds. Code federal payments to the National Guard as direct federal expenditure. Code federal payments to the states or to the District of Columbia for National Guard purposes as intergovernmental payments to the states or to the District of Columbia.

6 Although Washington Aqueduct is under the Corps of Engineers, U.S. Army, it is classified in census statistics on governments as a dependent agency of the District of Columbia, in accordance with provisions of ss. 43-1520, ff. of the DC Code.

7 See list of federal institutions for institutions operated.

8 Local housing authorities are classified in census statistics on governments as special district governments or as county-, municipal-, or town(ship)-dependent agencies, depending on applicable state law. They are not classified as federal agencies. Debt issued by local housing authorities is not classified as federal debt in census statistics on governments.

9 Also operates National Capital Parks and John F. Kennedy Center building in Washington DC

10 In Washington DC, U.S. Attorneys and U.S. Marshals perform criminal prosecution and service-of-process functions, respectively, for cases both under D. C. law and under federal law.

11 FAA also owns two major airports (Washington Dulles International and Washington National) in the Washington DC area. However, unit 47 4 007 401, Metropolitan Washington Airports Authority, took over operation of these two airports in 1987.

12 However, the St. Lawrence Seaway AUTHORITY is a Canadian body and would thus be excluded.

13 The U.S. Government Manual lists this entity as 'quasi-official'.

14 These joint agencies are also listed as joint agencies on the dependent agency listings of the state governments they serve.

15 Receives federal appropriations.

16 The U.S. Government Manual lists Amtrak as a government corporation, but its employees are not classified as federal employees by the Office of Personnel Management.

17 FY 1983 Budget states specifically that employees of the Neighborhood Reinvestment Corporation are not federal employees.

Bureau of the Census

February 1985
Rev. Aug. 1995

*Part B. Checklist of FEDERAL INSTITUTIONS for
Governments Division surveys*

AGENCY OR INSTITUTION:

SOURCE:

HIGHER EDUCATION: (excluding military and Coast
Guard Schools)

U.S. Merchant Marine Academy, Kings Point, NY
Department of Transportation, Maritime
Administration²⁵

NOTE: Gallaudet College and Howard University, both of
which are in Washington, DC and receive federal
appropriations, are classified as private institutions for
census purposes.

Source: NCES Education Directory, Colleges and
Universities.

HOSPITALS: (excluding military or prison hospitals)
(also see p. 3)

Operated by U.S. Department of Health and Human
Services:

P. H. S. hospitals for Indians and Alaska natives
(operated by Health Service; arranged by state):

In Alaska--Anchorage, Barrow, Bethel,
Dillingham, Kotzebue, and Mount
Edgecumbe.

In Arizona--Chinle (Chinle Comprehensive
Health Care Facility), Fort Defiance, Keams
Canyon, Parker, Phoenix (Phoenix Indian
Medical Center), Sacaton, Sells, Tuba City,
and Whiteriver.

In California--Winterhaven.

In Minnesota--Cass Lake.

In Mississippi--Philadelphia.

In Montana--Browning, Crow Agency, and
Harlem.

In Nebraska--Winnebago.

In Nevada--Owyhee.

In New Mexico--Albuquerque, Crownpoint,
Gallup (Gallup Indian Med. Ctr.), Mescalero,
San Fidel (Acoma-Canoncito-Laguna Hosp.),
Santa Fe, Shiprock, and Zuni.

In North Carolina--Cherokee.

In North Dakota--Belcourt and Fort Yates.

In Oklahoma--Ada (Carl Albert Indian Health
Facility), Claremore, Clinton, Lawton,
Tahlequah (W. W. Hastings Indian Hosp.),
Talihina (Choctaw Nation Indian Hosp.).

In South Dakota--Eagle Butte, Pine Ridge,
Rapid City, Rosebud, Sisseton, and
Wagner.

Other P. H. S. hospitals (arranged by state):

In Maryland--National Institutes of Health,
Bethesda.

NOTE: P.H.S. hospitals for merchant sailors have been
phased out. St. Elizabeth's Hospital in Washington D. C.
was transferred to the District of Columbia government in
1987.

Sources: The Budget of the United States Government,
FY 1983, appendix, pp. I-K3 to I-K7 and I-K26; American
Hospital Association, AHA Guide.

Department of Veterans' Affairs Medical Centers
(arranged by state):

In Alabama--Birmingham, Montgomery,
Tuscaloosa, and Tuskegee.

In Arizona--Phoenix, Prescott, and Tucson.

In Arkansas--Fayetteville and Little Rock.

In California--Fresno, Livermore, Loma Linda,
Long Beach, Los Angeles (Sepulveda and West
Los Angeles), Palo Alto, San Diego, and San
Francisco.

In Colorado--Denver, Fort Lyon, and Grand
Junction.

In Connecticut--Newington and West Haven.

In Delaware--Wilmington.

In DC--Washington, DC

In Florida--Bay Pines, Gainesville, Lake City,
Miami, and Tampa.

In Georgia--Augusta, Decatur, and Dublin.

In Idaho--Boise.

In Illinois--Chicago (Huron Street and Damen
Avenue), Danville, Hines, Marion, and North
Chicago.

In Indiana--Fort Wayne, Indianapolis, and
Marion.

In Iowa--Des Moines, Iowa City, and Knoxville.

In Kansas--Leavenworth, Topeka, and Wichita.

In Kentucky--Lexington and Louisville.

In Louisiana--Alexandria, New Orleans, and
Shreveport.

In Maine--Togus.

In Maryland--Baltimore, Fort Howard, and
Perry Point.

²⁵Classified as an institution of higher education in NCES
Education Directory--Colleges and Universities, 1981-82
edition

In Massachusetts--Bedford, Boston (Jamaica), Brockton (formerly West Roxbury), and Northampton.
 In Michigan--Allen Park, Ann Arbor, Battle Creek, Iron Mountain, and Saginaw.
 In Minnesota--Minneapolis and St. Cloud.
 In Mississippi--Biloxi and Jackson.
 In Missouri--Columbia, Kansas City, Poplar Bluff, and St. Louis.
 In Montana--Fort Harrison and Miles City.
 In Nebraska--Grand Island, Lincoln, and Omaha.
 In Nevada--Reno.
 In New Hampshire--Manchester.
 In New Jersey--East Orange and Lyons.
 In New Mexico--Albuquerque.
 In New York--Albany, Batavia, Bath, Buffalo, Canandaigua, Castle Point, Montrose, New York City (Bronx, Brooklyn, and Manhattan), Northport, and Syracuse.
 In North Carolina--Asheville, Durham, Fayetteville, and Salisbury.
 In North Dakota--Fargo.
 In Ohio--Chillicothe, Cincinnati, Cleveland, and Dayton.
 In Oklahoma--Muskogee and Oklahoma City.
 In Oregon--Portland and Roseburg.
 In Pennsylvania--Altoona, Butler, Coatesville, Erie, Lebanon, Philadelphia, Pittsburgh, (University Dr. and Highland), and Wilkes-Barre.
 In Rhode Island--Providence.
 In South Carolina--Charleston and Columbia.
 In South Dakota--Fort Meade, Hot Springs, and Sioux Falls.
 In Tennessee--Memphis, Mountain Home, Murfreesboro, and Nashville.
 In Texas--Amarillo, Big Spring, Bonham, Dallas, Houston, Kerrville, Marlin, San Antonio, Temple, and Waco.
 In Utah--Salt Lake City.
 In Vermont--White River Junction.
 In Virginia--Hampton, Richmond, and Salem.
 In Washington--Seattle, Spokane, Tacoma, and Walla Walla.
 In West Virginia--Beckley, Clarksburg, Huntington, and Martinsburg.
 In Wisconsin--Madison, Milwaukee, and Tomah.
 In Wyoming--Cheyenne and Sheridan.
 In Puerto Rico--San Juan.

NOTE: Department of Veterans' Affairs facilities are classified as follows:

VA Medical Centers--code 37 (public hospitals--veterans).

VA Nursing Homes --code 28 (public health--veterans).

VA domiciliaries--welfare institutions.

SPECIAL SCHOOLS ('Education--other'):
(excluding military, Coast Guard, or prison schools)
Nat'l Institute of Justice, Washington, DC (Dept. of Justice)
U.S. Indian schools (Dept. of the Interior; see Note, below)

NOTE: Education for Indians is provided by (1) local public school systems; (2) tribal schools; or (3) U.S. Indian schools directly operated by U.S. Dept. of the Interior, Bureau of Indian Affairs. Only the U.S. Indian schools operated directly by the Bureau of Indian Affairs are classified as federal educational institutions.

Most Indians are educated by local public school systems, according to the FY 1983 federal budget (see appendix, p. I-M55). Indeed, two U.S. Indian schools are scheduled to be closed during FY 1983.

The following special schools, which receive a large portion of their funds from federal appropriations, are classified as private institutions:

Center for Cultural and Technical Interchange between East and West, Honolulu, Hawaii Kendall Demonstration Elementary School; Model Secondary School for the Deaf, Washington, DC (operated by Gallaudet Univ.)

National Technical Institute for the Deaf, Rochester, N.Y.

Sources: The Budget of the United States Government, FY 1983 appendix, pp. I-M55, I-N19, and I-Q53; The United States Government Manual, 1981-82, pp. 244-247.

NATIONAL CENTER FOR EDUCATION STATISTICS

**FEDERAL LIBRARIES AND
INFORMATION CENTERS SURVEY**
Fiscal Year ending September 30, 1994

Please read the accompanying instructions before completing this survey form. Report exact data or estimates for the library or information center listed in the address label and for any other domestic libraries, information centers, or branch locations that it operates. Please provide a list of these locations in Part A, Item 2 on page 2. Exclude foreign branch operations and all other entities located outside the United States.

If there are any questions about this form,
contact Carol Kindel, NCES, at (202) 219-1371
or
Bureau of the Census representative at
(301) 457-1566 or (800) 451-6236
or
Jeffersonville, Indiana representative at
(800) 972-5650 FAX (812) 288-3494

Date due: March 3, 1995

NOTE - This form is authorized by law (20 U.S.C. 1221e-1). While you are not required to respond, your cooperation is needed to make the results of this survey comprehensive, accurate, and timely.

Please correct any errors in the name, address, and ZIP Code.

4. U.S. Federal Government Department	5. U.S. Federal Government Agency	6. Fax Telephone (Area code, number, ext.)

PURPOSE OF THE SURVEY

The National Center for Education Statistics (NCES) is collecting these data to update Federal library and information center statistics, last collected in 1978, by getting current, up-to-date detailed data on library and information services in the Federal Government during 1994. This is to be a comprehensive survey dealing with the full range of functions, sources, services, staff, and expenditures of Federal libraries and information centers that serve their Federal agencies by providing library-type services. Need for current data is critical at this time because of the changing character of libraries and information services under the impetus of technological innovation with resulting changes in responsibilities of information professionals and support staff.

USES OF DATA

Collection of these data over time will enable effective planning for the development and use of Federal library and information center resources. The data will be used to support assessment of Federal libraries and information centers by providing descriptive information and by obtaining information on identified policy issues. The data are also needed to provide a basis for comparisons and for trend analysis. Finally, the survey results will help determine the status of Federal library and information center operations and of the professions represented in them.

WHO SHOULD RESPOND

1. Is your facility thought of as either a library¹ or an information center²? (Do not answer 'Yes' if you are a public affairs office, an agency locator service, a records management facility, a publications distribution facility, or a computer center.)
2. Is your facility staffed with at least one paid part-time or full-time librarian, technical information specialist, library technician, archivist, or other trained person **whose principal function is to assist others in meeting their information needs**?
3. Is your facility **either**: a) considered to be a Federal Government operation **or** b) receiving a majority (at least half) of its funding from Federal appropriations? (Check 'yes' if either a or b is true.)
4. Does your facility **either** support the information needs of a Federal agency **or** supply information as part of the agency's mission?

Yes No

1 ☐ 2 ☐

1 ☐ 2 ☐

1 ☐ 2 ☐

1 ☐ 2 ☐

NOTE: For the purposes of this survey, a facility is included whether it is open to the public or not.

¹For the purposes of this survey, a **library** is an organization that includes among its functions the following: selection, acquisition, organization, preservation, retrieval, and provision of access to information resources.

²For the purposes of this survey, an **information center** is an organization that performs the function of linking requestors with appropriate information resources through established mechanisms, such as database searching, providing referrals, answering specific questions, or by other means.

Complete this survey and continue below if you answered 'Yes' to ALL the above questions.

If you answered 'No' to ANY of the above questions, STOP HERE and return this form to the address shown on page 1.

Part A - ORGANIZATION AND STRUCTURE

1. Check the box which best describes your library/information center. (See Instructions.)

MARK (X) ONLY ONE BOX.

- 1 ☐ Autonomous library/information center
- 2 ☐ Headquarters or central/main library/information center
(List other locations included in this report below.)
- 3 ☐ Branch or nonautonomous library/information center
(Reporting independently.)

2. If your unit is a headquarters or central/main library information center, identify the subordinate entities or branches included in this report. (Attach additional pages if necessary.)

Line No.	Name (1)	Address (2)	City (3)	State (4)	ZIP Code (5)
01					
02					
03					
04					
05					
06					

Part A - ORGANIZATION AND STRUCTURE - *Continued*

3. Specify the primary nature of the organizational component to which your unit reports.

MARK (X) ONLY ONE BOX.

- 1 ☐ Library/information center
- 2 ☐ Administrative
- 3 ☐ Computer technology/Information Resources Management
- 4 ☐ Education
- 5 ☐ Legal
- 6 ☐ Research/technical
- 7 ☐ Other - Specify --

Part B - MISSION AND CLIENTELE, FISCAL YEAR 1994

1. Check the box which most closely resembles your mission and subject area. (See Instructions.)

MARK (X) ONLY ONE BOX.

- 1 ☐ Presidential
- 2 ☐ National
- 3 ☐ Academic
- 4 ☐ Engineering and science
- 5 ☐ General (exclude hospital and penal)
- 6 ☐ Health and medicine
- 7 ☐ Hospital (patient's)
- 8 ☐ Law
- 9 ☐ Multi-type
- 10 ☐ Penal
- 11 ☐ Special (excluding engineering and science, health and medicine, and law)
- 12 ☐ Training center and/or instructional (technical) school

2. Check all boxes which best describe your users (clienteles).

MARK (X) ALL THAT APPLY.

- 1 ☐ Agency staff
- 2 ☐ Other Federal staff
- 3 ☐ Other government (state, local, international)
- 4 ☐ Targeted populations (e.g., specialized professionals, military dependents, hospital patients)
- 5 ☐ General public
- 6 ☐ Commercial entities (e.g., business, industry)
- 7 ☐ Other - Specify --

Part C - FACILITIES, FISCAL YEAR 1994

1. Show in square feet the net area assigned to library/information center purposes in all facilities.

Square Feet

Part D - COLLECTIONS, FISCAL YEAR 1994

1. Check the classification system used for classifying all or most of new acquisitions in the fiscal year 1994.

MARK (X) ONLY ONE BOX.

- ☐ 1 Library of Congress
☐ 2 Dewey Decimal Classification
☐ 3 National Library of Medicine
☐ 4 Superintendent of Documents Classification
☐ 5 Materials not classified
☐ 6 Other -- Specify --

2. Does your library/information center serve as a Government depository? If yes, also indicate whether the service is full or selective.

- ☐ 1 Yes ----- ☐ a Full
☐ 2 No ☐ b Selective

3. Show the total numbers held in collections at the end of the fiscal year. Do not leave blank—enter 0, NA (not applicable), or U/A (unavailable).

Line No.	Category	Total Number Held at End of Fiscal Year		
		Print (1)	Microform (2)	Electronic (3)
01	Books VOLUMES OR VOLUME EQUIVALENT			
02	TITLES			
03	Periodicals VOLUMES OR VOLUME EQUIVALENT			
04	NONCURRENT TITLES			
05	CURRENT SUBSCRIPTIONS (Purchased and nonpurchased—exclude loose leaf)			
06	CURRENT LOOSE-LEAF SUBSCRIPTIONS			
07	Government documents or non-Government reports (Not reported elsewhere) NUMBER			
08	Other materials (Include manuscripts, cartographic materials, and others) UNITS			
09	Audiovisual materials (Include graphic materials, sound recordings, motion pictures, and video recordings) (Exclude computer/electronic media files or printed material photographically reduced in microfilm and special format materials) UNITS			
10	Special format materials (For individuals unable to read standard print; e.g., braille, recordings, large print, electronic) (Exclude from line 09) UNITS			

Part E - SERVICE ACTIVITIES, FISCAL YEAR 1994

Section 1 - HOURS OF SERVICE AND GATE COUNT

1. Are services available to the general public?	☐ Yes ☐ No
2. How many total hours is your library or information center open <i>per typical week</i> (use whole hours) under staff supervision?	Hours
3. What is your gate count <i>per typical week</i> within fiscal year 1994?	Gate count

Section 2 - REFERENCE AND OTHER SERVICES

1. Check all appropriate ways reference services are provided. MARK (X) ALL THAT APPLY.	☐ 1 By staff ☐ 2 Contracted services ☐ 3 Services provided by parent or other Government agency library ☐ 4 Other -- Specify -- _____ ☐ 5 None	
2. Show the number of requests or searches <i>per typical week</i> : Note: Exclude OPAC from lines 01 through 05. Do not leave blank—enter 0, NA (not applicable), or U/A (unavailable).		
Line No.	For	Total Number Requests or Searches
01	Directional/ready reference requests	
02	Substantive reference requests	
03	On-line searches	
04	CD-ROM searches	
05	Internet searches	
06	OPAC and other in-house database searches	

Section 3 - PHOTOCOPYING TRANSACTIONS

1. Check whether or not on-site photocopy machines are available to the following users. If 'yes', check the '\$' box if charges are applied:	YES (1)	NO (2)	\$ (3)
a. Primary clientele			
b. Other users			
2. Show the number of photocopy exposures made for users by staff or contractors (include routing tables of contents and overnight services) <i>per typical week</i> .	Number		

Part E - SERVICE ACTIVITIES, FISCAL YEAR 1994 - *Continued*

Section 4 - LOAN TRANSACTIONS, FISCAL YEAR 1994

1. Show the number of transactions made in direct circulation of materials to users (include routing of periodicals to users outside library/information center; i.e., number of people on routing list).	Number
2. Show the total number of interlibrary loan requests received (borrowed) from other libraries.	Number
3. Check all ways interlibrary loan requests are received (borrowed) from other libraries. MARK (X) ALL THAT APPLY.	☐ 1 Phone ☐ 2 Mail ☐ 3 Fax ☐ 4 Electronic networks ☐ 5 OCLC ☐ 6 Special database (i.e., DOCLINE or VALNET) ☐ 7 In Person ☐ 8 Other - Specify - _____ ☐ 9 None
4. Show the total number of interlibrary loan requests filled (sent out).	Number
5. Check all ways interlibrary loan requests are filled (sent out). MARK (X) ALL THAT APPLY.	☐ 1 Phone ☐ 2 Mail ☐ 3 Fax ☐ 4 Electronic networks ☐ 5 Special database (i.e., DOCLINE or VALNET) ☐ 6 In Person ☐ 7 Other - Specify - _____ ☐ 8 None
6. Does your library/information center charge for providing interlibrary loan materials to: Mark 'yes' if you ever charge; mark 'no' if you never charge.	
a. Primary clientele	☐ 1 Yes ☐ 2 No
b. Other libraries	☐ 1 Yes ☐ 2 No
c. Other individuals or organizations	☐ 1 Yes ☐ 2 No

Section 5 - OTHER SERVICES, FISCAL YEAR 1994

1. Check whether or not you perform each of the following services. If 'yes', check the '\$' box if you charge to any user groups.				
Line No.	Services	YES (1)	NO (2)	\$ (3)
01	Centralized technical services			
02	Prepares published bibliographies			
03	Produces other publications			
04	Produces on-line or CD-ROM databases			
05	Translations			
06	Selective Dissemination of Information (SDI)			
07	Outreach services			
08	Professional consultation			

Part F - AUTOMATION AND TELECOMMUNICATIONS, FISCAL YEAR 1994

1. Check when the following functions were automated in your library/information center either through in-house development, a bibliographic utility (e.g., OCLC and RLIN), or a vendor system.

Line No.	Function	Automated before 1991 (1)	Automated since 1991 (2)	Automation Under Development (3)	Not Automated (4)	Not Performed (5)
01	On-line Public Access Catalog (OPAC)					
02	Acquisitions					
03	Cataloging					
04	Authority file control					
05	Interlibrary loan					
06	Circulation					
07	Serials control					
08	Other -- Specify --					

2. Check all of the technology available to any staff and/or users in your library/information center.

MARK (X) ALL THAT APPLY.

- 1 ☐ Electronic mail (Email)
- 2 ☐ FAX
- 3 ☐ Local Area Network (LAN)
- 4 ☐ Wide Area Network (WAN)
- 5 ☐ INTERNET
- 6 ☐ Client/Server Interfaces (e.g., Gopher, WAIS)
- 7 ☐ Magnetic tape
- 8 ☐ CD-ROM
- 9 ☐ WORM
- 10 ☐ Other -- Specify --
- 11 ☐ None

Part G - COOPERATIVE ARRANGEMENTS, FISCAL YEAR 1994

1. Check all of the groups in which your library/information center participates.

MARK (X) ALL THAT APPLY.

- 1 ☐ FEDLINK (Federal Library and Information Network)
- 2 ☐ Agency administrative networks
- 3 ☐ Local and regional cooperatives (include metropolitan, intrastate, and statewide cooperatives)
- 4 ☐ Interstate and national cooperatives
- 5 ☐ Bibliographic service centers
- 6 ☐ Bibliographic utilities
- 7 ☐ Centralized processing centers
- 8 ☐ Cooperative collection resource facilities
- 9 ☐ Union catalog or union list other than a national union catalog or list, but including a regional or special catalog or list that may also report nationally
- 10 ☐ Other -- Specify --
- 11 ☐ None

Part H - EXPENDITURES, FISCAL YEAR 1994

1. Report your OPERATING EXPENDITURES from all sources. Note: Do not report the same expenditures more than once.

Line No.	Purpose	Amount (Whole dollars)
01	Salaries and Wages (include benefits)	\$
02	Collection Resources	\$
03	All Other Operating Expenditures	\$

2. Report your CAPITAL EXPENDITURES.

Line No.	Purpose	Amount (Whole dollars)
01	Capital expenditures (include nonrecurring expenditures for the acquisition of or additions to fixed assets exclusive of above)	\$

Part I - BUDGETED STAFF, FISCAL YEAR 1994

1. Show the number of paid full-time equivalent (FTE) employees in filled positions (excluding building maintenance, volunteers, and contract staff), including Federal and non-Federal staff, assigned military personnel, and trust fund employees as of the end of fiscal year 1994.

Line No.	GS Rating (or equivalent)	Number of FTE Employees
01	GS 1-8	
02	GS 9-12	
03	GS 13-15	
04	Above GS 15	

2. Show the number of on-site contract staff in full-time equivalents (FTE) positions as of the end of fiscal year 1994.

Line No.	GS Rating (or equivalent)	Number of FTE Employees
01	Contract staff on site (include cooperative and interagency agreements)	

Part J - TRENDS

1. Identify the level of significance each issue is anticipated to have in the next 5 years.

Line No.	Issue	Level of Significance		
		High (1)	Medium (2)	Low or None (3)
01	Quality of space			
02	Quantity of space			
03	Reductions in staff size			
04	Increased demand for services			
05	Funding available for acquisition of materials			
06	Cost of interlibrary loan/document delivery service			
07	Ability to provide the level of service expected by clients			
08	Ability to provide clients access to electronic resources			
09	Ability to fund continued automation activities			
10	Ability to fund staff development activities			
11	Continued existence of the library/information center			
12	Contracting of more services			
13	Implementation of technological advances			
14	Charging for services to the public			

Part J - TRENDS -- Continued

2. Indicate whether each item below has significantly changed over the last 3 years. Check "significant increase" or "significant decrease" if the change has been greater than 10 percent over the last 3 years. Check "same" if the change has been less than 10 percent over the last 3 years. If the element does not apply to your situation, select "not applicable."

Line No.	Element	Significant Increase (1)	Same (2)	Significant Decrease (3)	Not Applicable (4)
	Funding				
01	Federally appropriated funds				
02	Federal, nonappropriated				
03	Other funds				
	Allocated Federal Positions (FTE'S)				
04	Management/supervisory positions (FTE's)				
05	Professional positions (FTE's)				
06	Technicians and support staff positions (FTE's)				
07	Library hours				
	Level of Service Offered				
08	Primary clientele				
09	Others				
	Acquisitions				
10	Number of serial subscriptions				
11	Dollars expended for serials				
12	Volumes of monographs purchased				
13	Dollars expended for monographs				
14	Dollars expended for other collections				
15	Contracting out for projects or functions				
16	Charging other libraries for interlibrary loans				
17	Charging user fees for other functions or services				
18	Staff training/retraining				

Part K - PRESERVATION

Preservation is defined as the provision of adequate facilities to protect, care for, or maintain collections; it includes specific measures, undertaken individually or collectively to maintain, repair, restore, or protect all materials in whatever form (books, periodicals, manuscripts, artworks, graphics, motion pictures, sound recordings, still photographs, video records, computer tapes and disks, and optical storage media). Maintenance includes binding.

1. How many full-time equivalent employees (professional and nonprofessional) are engaged in preservation activities?	Number
2. Which of the following have you undertaken or developed? MARK (X) ALL THAT APPLY.	1 ☐ Preservation survey 2 ☐ Preservation plan 3 ☐ Cooperative preservation activities 4 ☐ Disaster plan 5 ☐ Physical security plan 6 ☐ None

Part K - PRESERVATION -- Continued

3. What are your *FOUR* major preservation problem areas?

MARK (X) ONLY FOUR BOXES.

- 1 ☐ Wear and tear to paper materials
- 2 ☐ Wear and tear to bindings
- 3 ☐ Brittle paper
- 4 ☐ Electronic storage
- 5 ☐ Housing
- 6 ☐ Disaster preparedness
- 7 ☐ Environmental conditions
- 8 ☐ Contracting for preservation services
- 9 ☐ Minor in-house repairs
- 10 ☐ Preservation of microforms
- 11 ☐ Collection maintenance
- 12 ☐ Staff and patron education
- 13 ☐ Care/maintenance of nonprint materials
- 14 ☐ Preservation funding
- 15 ☐ None

4. What are your *THREE* major preservation training needs?

MARK (X) ONLY THREE BOXES.

- 1 ☐ Collection maintenance
- 2 ☐ Disaster planning and recovery
- 3 ☐ Contracting for preservation services
- 4 ☐ Commercial binding
- 5 ☐ Preservation planning
- 6 ☐ Environmental monitoring
- 7 ☐ Microfilming
- 8 ☐ Care of nonprint materials
- 9 ☐ Staff/patron education in care and handling of library materials
- 10 ☐ None

5. Will you support or not support the inclusion of a specific Federal preservation policy in the development of a national preservation policy?

MARK (X) ONLY ONE BOX.

- 1 ☐ Yes
- 2 ☐ No

Provide remarks concerning the questionnaire and instructions (reference Part and Item number--attach additional pages if necessary):

[illegible]

How many minutes did it take to complete the questionnaire?

Minutes

GENERAL INSTRUCTIONS
FEDERAL LIBRARIES AND INFORMATION CENTERS SURVEY
Fiscal Year ending September 30, 1994

Please respond to each item on this report in the space provided. Please do not leave any lines blank. If the appropriate answer is zero or none, use 0. If a figure is unavailable, use U/A. If not applicable, use NA. Please provide an estimate if exact data are not available. Include data for the main or central library and all branch and independent libraries that were open all or part of fiscal year 1994.

INSTITUTIONAL IDENTIFICATION

In the space provided at the top of the report, make any necessary corrections to the preprinted address information. Also, please enter the name, title, area code, telephone number of the person responsible for completing the report, the Federal Government department and agency, and the fax area code and telephone number.

SURVEY SCOPE

Include data for domestic locations only (within the United States). Exclude foreign branch operations and all other entities located outside the United States. Report for all parts of the library/information center that are located in the 50 states and the District of Columbia. For purposes of this survey, data for Puerto Rico, the Virgin Islands, and U.S. territories should be excluded.

WHO SHOULD RESPOND

This report is not applicable to your institution if the answer is 'No' to ANY of the four 'Who Should Respond' questions listed on page 2 of the survey form. If this is the case, return the form to the address shown on page 1.

PRINCIPLES TO FOLLOW IN PREPARING YOUR REPORT

- Moneys should be reported as operating expenditures at the level at which they are spent for library services, materials, or equipment.
- Shared personnel should be reported as staff by the receiving library.
- Materials given to or placed on permanent deposit in a library should be reported as holdings by the paying library.

PERIOD OF REPORT

Report information for the following time periods as specified in each section:

- **Fiscal year 1994** - The most recent complete fiscal year that ended prior to October 1, 1994.

- **Typical week in fiscal year 1994** - Choose a typical week in the past year, which is one in which the Federal library or information center is open its regular hours and which contains no holidays, and which reflects the regular activities of the library/information center.
- **Next 5 years** - The next 5 fiscal years from 1995 (ended prior to October 1, 1995) through 1999 (ending prior to October 1, 1999).
- **Last 3 years** - The last 3 fiscal years from 1992 (ended prior to October 1, 1992) through 1994 (ended prior to October 1, 1994).

Part A - ORGANIZATION AND STRUCTURE

Item 1 - Reporting Entity

Report whether the entity completing this report is an autonomous library/information center, or a headquarters or central/main library/information center reporting data for itself and/or other branches, or a branch or nonautonomous library/information center reporting data independently. Complete Item 2.

Autonomous library/information center--One which has a separate facility, collection, staff, a defined clientele, and full operational control. The principal operating budget would, in general, derive from the institution served.

Headquarters library/information center--Either a single-unit library serving administrative headquarters, or the central user unit, with administrative and directional control of other libraries.

Central/main library/information center--The single-unit library or the administrative center of a multiunit library where the principal collections are kept and handled.

Branch or nonautonomous library/information center--This is a user-service unit which has all of the following:

- Quarters that are separate from the central library.
- A permanent basic collection of materials.
- A permanent staff provided by the central library or the institution or organization of which the library is a part.

GENERAL INSTRUCTIONS
FEDERAL LIBRARIES AND INFORMATION CENTERS SURVEY-Fiscal Year 1994-Continued

- A regular schedule for opening.

They are administered from the central library and are not autonomous. However, some units may report independently for the purpose of this survey.

Item 2 - Subordinate Entities

Identify the subordinate entities or branches included in this report.

Item 3 - Controlling Entity

Mark one category that best describes the department, office, area, etc., that your library/information center directly reports.

Box 1 - Library/information center - A library is an organization that includes among its functions the following: selection, acquisition, organization, preservation, retrieval, and provision of access to information resources. An **information center** is an organization that performs the function of linking requestors with appropriate information resources through established mechanisms, such as database searching, providing referrals, answering specific questions, or by other means.

Box 2 - Administrative - An office in your agency clearly administrative in nature (e.g., planning, finance, facilities).

Box 3 - Computer technology/Information Resources Management - The agency's Office of Information Resource Management or similar management office for information systems.

Box 4 - Education - An office in your agency clearly educational in nature (e.g., outreach, public programs, training).

Box 5 - Legal - An office in your agency clearly legal in nature (e.g., legal counsel).

Box 6 - Research/technical - An office in your agency which oversees research (other than legal) and

technical (other than computer) operations (e.g., sciences, mechanics, industrial arts, historical, cultural).

**Part B - MISSION AND CLIENTELE,
FISCAL YEAR 1994**

Item 1 - Mission

Check only **ONE** type to describe your library's or information center's mission and subject area.

Box 1 - Presidential - Specializes in the official records, memorabilia, literature, and other materials concerning the affairs of Presidents of the United States.

Box 2 - National - (Library of Congress, National Library of Medicine, National Agricultural Library, National Technical Information Service) Have Government-wide responsibilities and missions which include concern for both National and international matters.

Box 3 - Academic - Serve the faculty and students in colleges, universities, graduate, and postgraduate schools (e.g., U.S. Military Academy, U.S. Naval Academy).

Box 4 - Engineering and science - Collections are devoted predominantly to engineering and the sciences.

Box 5 - General - Provide service to meet cultural, informational, educational, and recreational needs of a defined clientele (e.g., libraries on military bases). Report libraries serving patients in hospitals, and penal libraries under those classifications.

Box 6 - Health and medicine - Libraries or information centers whose collections are predominantly devoted to medicine and the health sciences.

Box 7 - Hospital (patient's) - Autonomous service units which are located in hospital facilities and are operated primarily to serve library needs of patients in the facility, but which are NOT part of post or base library systems.

Box 8 - Law - House collections which are predominantly devoted to legal materials.

Box 9 - Multi-type (systems) - Nonautonomous or semi-autonomous collections, branches, or facilities of more than one type as defined in this section, under a single administration (e.g., libraries which include patients' and

medical libraries in a single facility and under a single administration, combined general and educational libraries, a science library with a medical branch, etc.)

These libraries are usually the result of combining several libraries under one administration and direction, and fulfill

GENERAL INSTRUCTIONS
FEDERAL LIBRARIES AND INFORMATION CENTERS SURVEY-Fiscal Year 1994--Continued

dual missions, with each component serving separately defined user groups which may or may not overlap.

Box 10 - Penal - Libraries or information centers which serve penal institutions (e.g., Federal Youth Centers, Federal Reformatories, U.S. Penitentiaries, Federal Correctional Institutions). Military libraries which provide service to military penal facilities will not be included in this category UNLESS they are operated separately from a base or post library system.

Box 11 - Special - Technical or research libraries or information centers which serve a specialized clientele and whose mission plan and scope of collections and services are limited to the subject interests of the host or parent organization or agency, but are not predominantly devoted to Engineering and Science, Health and Medicine, or Law, and do not fall within any of the other definitions in this section.

Box 12 - Training center and/or instructional (technical) school - Support nondegree-granting educational (vocational) centers. Included in this group are military libraries or information centers which support an instructional mission (e.g., U.S. Army Language Training Facility, Amphibious Warfare Library).

Item 2 - Clientele

Check ALL that apply to identify your library's or information center's clientele.

Part C - FACILITIES, FISCAL YEAR 1994

Item 1 - Net area

Net area, in square feet, of space assigned for library purposes is the total space which can be put to use in furtherance of the library's mission. It consists of the sum of all areas on all floors of the buildings that have been assigned to or are used for library functions or purposes. It includes space for readers and reading areas, bookstack and related storage areas for the book collections, audiovisual materials, and other materials, working spaces for staff, space for services to users (include the card catalog and computer terminals), public-service desks, copying equipment, audiovisual equipment, other library equipment, aisles between bookstack ranges and library furnishings, and similar useful space. Such space does NOT include vestibules, lobbies, or traffic areas, janitorial or custodial storage or service areas, toilets, elevator or stairway space, building corridors, or similar space not specifically used for library functions.

The number of square feet in the net assignable area is determined by measuring the space between the permanent interior walls. Floor areas occupied by built-in furnishings, such as service counters, closets, and shelving, are included in the wall-to-wall net square feet. No deductions are made for columns or for projections necessary to the building structure.

Part D - COLLECTIONS, FISCAL YEAR 1994

Item 1 - Classification System

Show the ONE classification system which was used for classifying all or most of your library materials in fiscal year 1994. If materials in your library are not classified, check box 5.

Item 2 - Government Depository

Check whether or not your library/information center serves as a Government depository. If yes, check either full or selective service.

Item 3 - Numbers Held in Collections

Show the total number in the collection on September 30, 1994 for each type of material listed. Where no materials of this type are held in the library, enter NA. If specific data requested are unavailable, be sure to provide estimates. Suggestions for determining estimated numbers are shown under the definitions of types of materials.

General Definitions:

VOLUMES - A physical unit of any printed, handwritten, typewritten, mimeographed, or processed work contained in one binding or portfolio, hardbound or paperbound, that has been catalogued, classified, and made ready for use.

VOLUME EQUIVALENT - The paper equivalent in another medium such as microform or compact disk.

TITLES - As generally accepted a title is the distinguishing name of a work whether it be printed, on microfilm, or in electronic form and whether issued in one or several volumes, reels, slides, disks, or parts. In the case of reporting numbers of titles, multiple copies of the same edition of a title in the same format are reported as one title. If the title is duplicated in a different medium such as in compact disk as well as paper, it is counted under each medium.

GENERAL INSTRUCTIONS
FEDERAL LIBRARIES AND INFORMATION CENTERS SURVEY-Fiscal Year 1994-Continued

UNITS - An individual physical item of library material. Examples include a reel, card, slide, disk, sheet, volume, cartridge, etc.

Column (2) - Microform - Materials that have been photographically reduced in size for storage and protection purposes, and which must be read with the help of enlarging equipment (readers). Examples of microforms are: microfilm, microcard, and microfiche. These forms are also referred to as microcopy and microtext.

Column (3) - Electronic - Electronic media are machine readable serials, monographs, or databases in electronic form, such as compact disk, magnetic disk, or magnetic tape, which are designed to be processed by a local computer. Examples include U.S. Census Bureau data tapes, CD-ROM products, or subscriptions to individual electronic journals or books. Do not include titles in which a floppy disk is included as part of a book or journal. Do not include on-line products provided by large database utilities such as Mead Data Central, OCLC, or Dialog Information Services.

Lines 01 and 02 - Books - Exclude bound periodicals, microforms, documents, and technical reports. A library's organized (cataloged or recorded) collection(s) of books, monographs, paper-bound books, pamphlets, and such other items as classified and cataloged documents, manuscripts, memoirs, proceedings, transactions of societies, monographic and publishers series, and serials (with the exception of bound periodicals and microforms) prepared, organized into the general collections, and recorded in the same way as books, and which may be shelved with books. Items that are not prepared or organized in the same manner as books such as unbound magazines, journals, and newspapers, should not be reported as part of the book collection.

Line 01 - Book Volumes - A volume for this purpose is any number of printed or written sheets, sections, pamphlets, manuscripts, maps, or sheets of music that are bound together. In other words, report in this category the number of physical units of the book collection contained in one binding or portfolio. Do not report here photographically reduced volumes.

Line 02 - Book Titles - The title is the distinguishing name of any written or printed work as shown on the title page of a volume (as described above). Report in this category the number of items for which a separate shelflist* card has been made. However, observe the following guidelines:

Six copies of the same edition of an item should be counted as one title; two editions of the same title which have been cataloged or recorded separately are to be counted as two titles; a set of six items for which six shelflist cards have been made should be counted as six titles; and two sets of the same edition for which one shelflist card has been made will be counted as one title.

*Note: A record of the books in a library arranged in the order in which they stand on the shelves, and where the various copies may be located in the library. It also serves as an inventory of the collection.

Method for Estimating the Number of Titles in the Collections - A library which does not keep a title count for its various collections or that finds it difficult to count the number of separate shelflist cards may use the following acceptable method for estimating this count:

- Count the number of titles in 1 inch of shelflist cards in the shelflist;
- Repeat step one at random intervals (e.g., count 1 inch in every foot) through the shelflist;
- Average the number of titles per inch;
- Multiply the average titles per inch by the number of inches of cards in the shelflist.

Lines 03-06 - Periodicals - A periodical collection comprises magazines, newspapers, and other serial publications that are processed as magazines and newspapers, and located in a newspaper and periodicals reading room or section of the library. Serial publications that have been cataloged, recorded, or classified into collections in such a manner that they cannot readily be identified as serial publications should not be reported as part of the periodical collection; e.g., a newspaper or a yearbook that has been cataloged as a volume of the book collection is to be recorded in the book collection category. Do not report a magazine or annual report produced by an agency and classified with general documents in the documents section of the library.

Line 03 - Periodical volumes - A periodical volume is the publisher's volume (i.e., the unit established by the publisher as a volume). A periodical volume may or may not correspond to 1 year's issue of a title; i.e., Time magazine, v. 95 and 96, 1990, are two periodical volumes.

How to estimate periodical volumes - In general, a periodical volume corresponds to 1 year's issue of a title. If it is difficult to count the number of periodical volumes, report the number of whole years for which the library or information center has holdings. Do not report fractions of a year.

GENERAL INSTRUCTIONS
FEDERAL LIBRARIES AND INFORMATION CENTERS SURVEY-Fiscal Year 1994--Continued

Line 04 - Periodical noncurrent titles - The number of titles held in the periodical collection for which new issues are no longer being received.

Line 05 - Periodical current subscriptions (exclude looseleaf) - List the number of titles, exclusive of duplicates, for which current subscriptions are held.

Line 06 - Periodical current looseleaf subscriptions - Information, especially current data, in easy-to-use form, not readily available otherwise, issued by various types of agencies and organizations. This type of data and information may be issued in printed multigraphed, looseleaf, or other form, and made available to libraries regularly on a subscription basis.

Line 07 - Government documents or non-Government reports - Include here the number of publications bearing a Government imprint, technical reports, and classified (security controlled) materials that have not been reported under the book or periodical categories.

Line 08 - Other materials (i.e., manuscripts, cartographic materials, flat pictures, study printsets, games, etc.) - Include in this category all other types of materials not included in any of the other previously described categories, such as manuscripts, maps/charts (number of sheets), flat pictures, study printsets, all kinds of prints, photographs, plates, etchings, posters, cartoons, games, etc. Maps may be of cities, villages, or smaller areas; a map may be pictorial, or it may be used as background for exhibiting various facts. Maps/charts may also be meteorological (star maps), hydrographic maps, and those for navigators. Record here the number of items of such material held during the reporting period in each form in the appropriate columns.

Line 09 - Audiovisual materials - Include all materials which are produced to be viewed or heard through the use of special equipment. This does not include computer/electronic media files or printed material photographically reduced in microfilm. Do not include special format audiovisual materials reported on line 10.

Line 10 - Special format materials - Report the number of print units and electronic units of special format materials for individuals unable to read standard print; e.g., braille, recordings, large print, electronic. Include special format audiovisual materials here; not on line 09.

Part E - SERVICE ACTIVITIES, FISCAL YEAR 1994

Section 1 - HOURS OF SERVICE AND GATE COUNT

Item 1 - Services

Indicate whether or not services are available to the general public (not primary clientele).

Item 2 - Hours of service

Show the number of hours the library or information center is open to general users in a typical week in the past year. Show only hours open under staff supervision. Use the nearest whole hour; omit fractions.

Item 3 - Gate count

The number of persons counted either entering or leaving the library/information center in a typical week in the past year. If not regularly counted, results of samplings may be entered.

Section 2 - REFERENCE AND OTHER SERVICES

Item 1 - Ways reference services are provided

Check all that apply.

Item 2 - Number of requests or searches per typical week

Report the number of reference, directional, and on-line transactions made in person, by telephone, electronically, and through correspondence regardless of whether the information was supplied from materials in your library or another source.

Lines 01 and 02 - Reference transactions - These are transactions which call for professional library staff skill in (a) locating and supplying information from own or outside sources, (b) analysis or interpretation of literature, (c) selection and assemblage of library material to answer inquiry, (d) acting as a clearinghouse; referring to another expert source.

These transactions may involve, but are not limited to, extensive research. Do NOT include reference transactions involving only on-line database searches or OPAC.

Line 01 - Directional/ready reference requests - Reference time spent on each query is usually 10 minutes or less. Simple on-line searching may be necessary for verifications or holdings. Count each query as a separate intellectual unit.

Line 02 - Substantive reference requests - Reference requiring more time and work than ready reference, such as substantive subject searches, research, and the use of more than basic reference tools. Usually more than 10 minutes time may be needed. Not mutually exclusive

GENERAL INSTRUCTIONS
FEDERAL LIBRARIES AND INFORMATION CENTERS SURVEY-Fiscal Year 1994--Continued

from the on-line search counts. Count each query as a separate intellectual unit.

Line 03 - On-line searches - Staff mediated on-line searching for substantive searches requiring more than a simple verification or collection holding for which users are not charged fees. Not mutually exclusive from substantive reference requests. Count includes all on-line access points (i.e., each database searched).

Line 04 - CD-ROM searches - Transactions that provide information via CD-ROM. Exclude OPAC.

CD-ROM - Compact disc-read only memory. An optical storage technology on which data, audio or video, can be stored.

Line 05 - Internet Searches - Transactions that provide information via Internet. Exclude OPAC.

Line 06 - OPAC and other in-house database searches - Transactions that provide information via OPAC (on-line public access catalog of library holdings).

Section 3 - PHOTOCOPYING TRANSACTIONS

Self-explanatory.

Section 4 - LOAN TRANSACTIONS, FISCAL YEAR 1994

Item 1 - Number of transactions made in direct circulation of materials to users (includes routing of periodicals to users outside library/ information center)

Only loan transactions of items charged directly to library users for use outside the library should be reported here. Do not include a count of the call slips used to obtain materials from closed stacks or other counts of use within the library. Do not count in this category materials lent in bulk loans or lent to other libraries on interlibrary loan.

Number of transactions - Report each book charged as a single transaction. In the case of sound recordings, five discs contained in one sound recording album and charged out as an album count as one transaction. A box of slides charged as a box counts as one transaction. Several pages of photocopy lent in reply to one request should also be counted as one transaction. Count routing of periodicals as the number of people on routing list.

Items 2-6 - Interlibrary loans

These are items (library materials of various kinds) received by your library in answer to specific title, author,

or subject requests, or materials lent to other libraries not under your library's administration in response to specific title, author, or subject requests. Bulk loan or rental collection transactions are not included.

Note: In counting the number of transactions for materials provided to other libraries or received from other libraries, be sure to count several items received or lent as a single unit, as one transaction. As indicated above, a box of slides received or lent as a single unit, counts as one transaction, etc.

Section 5 - OTHER SERVICES, FISCAL YEAR 1994

Item 1 - Definitions of services listed below:

Line 06 - Selective Dissemination of Information (SDI) - Performance of ongoing research for patrons on areas of interest, which may include scanning and routing of new materials, tables of contents, periodic database searching, and other means to update patrons to current awareness in areas of broad and specific interest.

Line 07 - Outreach services - Library services provided to patrons within and outside the primary facilities served. They may include services charges outside affiliated and unaffiliated institutions and clientele. Examples are bookmobiles, clinical and circuit librarians, and regional services.

Part F - AUTOMATION AND TELECOMMUNICATIONS, FISCAL YEAR 1994

Item 1 - Automation of functions

Check only one category for each function.

GENERAL INSTRUCTIONS
FEDERAL LIBRARIES AND INFORMATION CENTERS SURVEY-Fiscal Year 1994-Continued

Item 2 - Definitions of technologies listed below:

Box 1 - Electronic mail (Email) - The electronic transmission of messages or documents in a computer system or between computers.

Box 2 - FAX - An abbreviation commonly used for facsimile transmission (telefacsimile). It represents the technology used to digitally transmit graphic material over the public telephone network.

Box 3 - Local Area Network (LAN) - A cluster of PCs and other computer peripherals in a relatively small area interconnected for the purpose of communications, file transfer, and sharing of peripheral hardware.

Box 4 - Wide Area Network (WAN) - A communications network that spans large areas (hundreds or thousands of miles) by using telecommunications lines provided by a common carrier (e.g., the phone company).

Box 5 - INTERNET - The collection of networks that connect Government, university, and commercial agencies (e.g., NSFNET, WestNet, BITNET, etc.). The term is also more broadly used to designate any set of interconnected, logically independent networks.

Box 6 - Client/Server Interfaces (e.g., Gopher, WAIS) - A program operating on a microcomputer, workstation, or timesharing computer system that is accessed by a person and which provides an interface to remote information systems (e.g., databases). The end-user is insulated from the remote system database access protocols so that a common-user interface is supplied to the person.

Box 7 - Magnetic tape - A tape of any material coated with magnetic particles on which audio, video, and digital data can be recorded as magnetic variations and used with a computer for input and output of data stored on the tape.

Box 8 - CD-ROM - Compact disc-read only memory. An optical storage technology on which data, audio or video, can be stored.

Box 9 - WORM (WRITE ONCE-READ MANY) - An acronym for optical disc technology in which data can be written once but the data cannot be erased.

**Part G - COOPERATIVE ARRANGEMENTS,
FISCAL YEAR 1994**

Item 1 - Definitions of groups listed below:

Box 1 - FEDLINK - (Federal Library and Information Network) A cooperative network program established by the Federal Library and Information Center Committee (FLICC) of the Library of Congress. Through FEDLINK, FLICC offers all Federal agencies cost-effective access to information and library operations support services from commercial sources.

Boxes 2-4 - Networks and cooperatives - Total of two or more independent libraries of any type(s) engaging in cooperative activities to perform library services for mutual benefit, according to some agreement on common purposes while retaining individual autonomy. The activities extend beyond reciprocal borrowing and beyond the scope of the national (American Library Association) interlibrary loan code.

Box 5 - Bibliographic service centers - Organizations that serve a network of libraries as a distributor of computer based bibliographic services. A service center gains access to bibliographic data through a bibliographic utility.

Box 6 - Bibliographic utilities - Organizations that maintain on-line databases provided by various libraries individually or cooperatively through networks. The utility provides a standard interface by which bibliographic data are accessible to libraries either directly or through bibliographic service centers.

Box 7 - Centralized processing centers - A library or other agency that orders library materials, prepares them for use, and prepares cataloguing records for them on behalf of a group of libraries.

Box 8 - Cooperative collection resource facilities - Facilities supported cooperatively by a group of libraries to acquire, maintain, and provide access to collection resources not generally available in any or all of the cooperating libraries. Materials may be acquired through cooperative purchase or through depository arrangements to maintain little-used materials furnished by participating libraries. Services typically include interlibrary lending, photocopying, and materials preservation. An example is the Center for Research Libraries. It is distinguished from a storage facility in which materials stored cooperatively remain the property of each library rather than becoming common property of the facility.

Box 9 - Union catalog or union list - A catalog or list of titles that describes the contents of physically separate

GENERAL INSTRUCTIONS
FEDERAL LIBRARIES AND INFORMATION CENTERS SURVEY-Fiscal Year 1994-Continued

library collections. Location data indicate the libraries in which a given item can be found.

**Part H - EXPENDITURES, FISCAL
YEAR 1994**

Item 1 - OPERATING EXPENDITURES

The current and recurrent costs necessary to the provision of library service, such as personnel, library materials, binding, supplies, repair or replacement of existing furnishings and equipment, and cost incurred in the operation and maintenance of the physical facility.

Line 01 - Salaries and Wages - Report the salaries and wages paid to all except maintenance employees, including full- and part-time employees assigned to work ON A REGULAR SCHEDULE in another library or agency. If salaries and wages are paid by the library (i.e., from the library budget) with some additional expenditures from an outside component, enter the total amount expended. Do NOT include fees paid to outside consultants hired in connection with the library program or special projects. Maintenance staff salaries and wages are to be reported with "All Other Operating Expenditures" on line 03. Fringe benefits for wages and salaries reported on line 01 will also be included on line 03.

Line 02 - Collection Resources - Report expenditures for the purchase or rental of all library materials. Include expenditures for library materials that were purchased for the library's permanent collections and for gifts. The cost of materials provided from centrally-held funds (e.g., book kits purchased by a system headquarters) will not be included. General definitions of what to include are as follows:

Books and periodical back files - Report expenditures for all published and photocopies of written works that are not reduced in microform, and for all other graphic works that are produced by printing processes. These include books, pamphlets, reports, documents, sheet music, and unframed art prints.

Periodicals - Report expenditures for current subscriptions (fiscal year 1994).

Microform materials - Report expenditures for materials that have been photographically reduced in size for storage and protection purposes.

Audiovisual materials - These are materials, such as graphic materials, sound recordings, motion picture films, video recordings, filmstrips, and slides, that are produced to be viewed or heard and that require special equipment in order to be utilized. DO NOT REPORT EXPENDITURES FOR PRINTED MATERIALS THAT HAVE BEEN PHOTOGRAPHICALLY REDUCED IN MICROFORM.

Commercial electronic media - Report expenditures for materials considered part of the collection, whether purchased or leased, such as CD-ROMS, magnetic tapes, and magnetic disks, that are designed to be processed by a computer or similar machine. Examples are U.S. Census Bureau data tapes, locally-mounted databases, and reference tools on CD-ROM, tape, or disk. Include current serials. Include expenditures for equipment when the cost is inseparably bundled into the price of the information service product. Exclude expenses for library system software and microcomputer software used only by the library staff.

Other materials - Report expenditures for those materials that do NOT belong in the categories of materials cited above. These include manuscripts, cartographic materials, mixed media (such as kits containing both printed and audiovisual materials), games, globes, framed art prints, photographs, and original art works, art objects, realia, etc.

Line 03 - Other operating expenditures - Report all expenditures for the operation of the library other than those already specified. These include expenditures for maintenance of the plant including salaries and wages for maintenance staff; personnel insurance and fringe benefits (e.g., social security, retirement, pensions, life insurance, health insurance, etc.); utilities, rent, interest on loans; recruiting expenses, in-service training; travel, dues; property insurance; and supplies. DO NOT REPORT MONEYS SPENT FOR INVESTMENTS, THE REPAYMENT OF THE PRINCIPAL ON LOANS, MONEYS TRANSFERRED AS GRANTS TO OTHER LIBRARIES AND LIBRARY AGENCIES, OR MONEYS TRANSFERRED TO OTHER FUNDS OR RETURNED TO GOVERNMENT SOURCES OR TO THE PARENT INSTITUTION. General definitions of what to include are as follows:

Preservation - Report total expenditures during the fiscal year for the binding and rebinding of any library materials. The specific measures undertaken for the repair, maintenance, restoration, or protection of library materials, including but not limited to binding and rebinding, materials conversion, boxing, deacidification, and lamination. Include expenditures for supplies such as boxes and acid free materials. Include equipment costs

GENERAL INSTRUCTIONS
FEDERAL LIBRARIES AND INFORMATION CENTERS SURVEY-Fiscal Year 1994-Continued

directly related to preservation, such as ultraviolet light filters, humidifiers, dehumidifiers, hygrothermographs, and nonwater fire suppression systems. Exclude equipment such as sprinkler systems and smoke and water detectors.

Furnishings, equipment - Report costs for purchase, rentals, and maintenance of all other furnishings and equipment, except computer and preservation equipment. Includes audiovisual equipment and equipment used with microforms.

Computer hardware, software, and supplies - Report expenditures from the library budget for computer hardware and software used to support library operations, whether purchased or leased, mainframe or microcomputer. Include expenditures for maintenance. Include the expenditure for equipment used to run information service products when that expenditure can be separated from the price of the product.

Hardware - Mechanical, electrical, or electronic equipment required in a computer system.

Software - Programs and instructions required for directing the operation of a computer system.

Bibliographic utilities, networks, and consortia - Include dues, fees, and operating expenses (not reference related expenses).

Contract costs - Fees paid to outside consultants hired in connection with the library program and/or special projects, and moneys expended for contracts with nonlibrary and library agencies. Include interagency and cooperative costs.

Item 2 - CAPITAL EXPENDITURES

Expenditures for the acquisition of or additions to fixed assets such as building sites, new buildings and building additions, new equipment, initial book stock, furnishings for new or expanded buildings, and new vehicles. Excludes replacement and repair of existing furnishings and equipment, regular purchase of library material, and investments for capital appreciation.

Part I - BUDGETED STAFF, FISCAL YEAR 1994

Item 1 - Number of Employees

Report the number of full-time equivalent employees in filled positions (excluding building maintenance, volunteers, and contract staff), including Federal and non-Federal staff, assigned military personnel, and trust fund employees as of September 30, 1994. INCLUDE full- and part-time employees permanently assigned to work in your library but paid by another library or agency.

For example, the "full-time equivalent" (FTE) for a part-time employee who works 25 hours per week in a 40-hour week is computed as follows:

$25 \div 40 = .625$. Add the total of all FTE for each category of employee and round the sum to one decimal point. Report this amount in the appropriate spaces. For example, the above employee working 25 hours per week and one other part-time employee in the same category working 20 hours per week are computed as follows:
 $.625 + .500 = 1.1$.
